# Cashing Out: An Urban Fantasy Thriller (Dana McIntyre Must Die Book 3)

## Synopsis

Book 3 of New York Times Bestselling Author SM Reine's urban fantasy thriller series. With the previous master vampire out of the way, and Dana McIntyre presumed dead, there's nothing standing between Nissa Royal and her vision for Las Vegas: a city of vampires where humans serve as no more than cattle. Except that someone keeps killing the vampires who are sweeping the streets for victims. A mysterious killer that nobody can seem to find. Someone bent on stopping Nissa... Police Chief Charmaine Villanueva is losing control of her city to the Office of Preternatural Affairs. She hopes to appease them with a preliminary cure for vampirism--her last shot at reassuring them that she can keep her citizens safe. Except someone has broken into Holy Nights Cathedral to steal the Garlic Shot, even though the church should be impossible to burgle. She can only think of one person with the ability to steal from the cathedral. But Dana McIntyre's been dead for hours. Hasn't she? Torn between OPA control and vampire control, Las Vegas is a city on the brink of war missing its guardian angel. It's a high stakes game with no limit. But the house isn't letting any of its players cash out yet...not when the game is just getting hot.

## Customer Reviews

I don't even know where to start! Wow just wow....hurry up with the next book already! This was by far my favorite book of the series. There was action & surprises (some good, some not so much) abound. What is the attraction/connection between Nissa & Dana? Will either of them survive, if not who will be the victor & at what cost? Will Dana ever be satisfied with the outcome of the Freemont Slasher situation? Chapters 19 & 20 were just heartwrenching for me. I'm sitting here stunned, I did not see that coming. I did love getting a visit from hottie Cesar, that was a pleasant crossover. I missed him & hope to see more of him. I really started to like Charmaine in this book. Is there really a cure for vampirism and will it get used or will the OPA use their daylight bomb & kill all vampires? If you have not read any of these books I highly recommend them.

Great read...cant wait for more..! Dana is kick ass....waiting for more on her and Ceaser Hawke...dec is to far away...

ARC granted to me by the author in exchange for an honest review. Nissa WANTS Dana to be hers and she'll do whatever it takes to have her. Dana HATES Nissa and if she finds her, she'll kill her. After all she's the reason Dana is now a full on vampire. With one bloody forced kiss from Nissa she lost her only shot at redemption and the chance to become human again. Made to live as one of the beings she despises above all, Dana is a force to be reckoned with. She's on a mission to kill all vampires she finds lurking under and above ground and Nissa's target #1. Too bad Nissa has developed some amazingly dangerous skills (they came along with the gift of turning full on vamp) that allow her take over the minds of anyone and anything - including Dana. Oh and as part of her turning she now has memories of her torturer (which happens to be one in the same as Penny's). She knows exactly who tormented them. But will she share the knowledge with Dana? A fast and entertaining read from start to finish!

I can't even   
™ | I really should deduct at least half a star for the gut wrenching events near the end   
™ | Oh, and I thought the last book ended with a crazy twist? o.O Trust me when I say that S.M. Reine is most definitely holding onto her #EvilAuthor title. Things took a strange and unexpected turn at the end of Kill Game. So strange and unexpected that everyone (except readers) in the beginning of Cashing Out knew that Dana was dead. There were a few that held out a little bit of hope, but it was a long shot. There were too many things that she would have had to overcome to actually survive, but this is Dana we're talking about and she obviously

wasn't finished yet. Needless to say, a lot happened in Cashing Out and not all of it was great. Dana was kinda awesome (I told you, she's growing on me) and her friends/family were great, whether they actually liked her or not. A key mystery was solved (I can't say that I was surprised). On the flip side, the OPA showed up (which wasn't all bad). Nissa became even stronger when she became a full fledged vamp and the absolute worst was that there were losses on both sides. \*tear\* So, this is turning out to be another vague review, and I'm sorry about that, but I just don't want to give anything away. I will say that I have a sudden urge to go back and read Bitter Thirst, because seeing one of my favorite OPA agents appear in Vegas was one of my favorite parts of Cashing Out. Well, maybe not my favorite, because this is Dana's book after all, but Cesar is just well, he's Cesar, enough said. So, I'm going to end this review (before I give anything away) with my usual disclaimer. If you haven't read a S.M. Reine book yet, pick one sooner rather than later. Start wherever you want, but I suggest either with Six Moon Summer or Descent. The world building is phenomenal and so interwoven between the series it's a wild ride. I've got my favorites, so now it's time for you to choose yours. You're welcome! I received Cashing Out in exchange for a fair and honest review.

I received a free copy of this book in exchange for a fair review. The previous book ended with a twist and this one opens with Dana being presumed dead. It starts with her friends and Penny believing she has died and Dana herself doesn't reappear for a while and I really did think that maybe she was truly dead for a little bit (although you can't really have this series without her). Unfortunately she has changed and maybe not all for the better. She is still determined to kill all vampires, and to hunt down the Fremont Slasher but for now she has to save all of Las Vegas! The vampires have come up with a new plan on how they, and only they, can rule all of Vegas and only Dana can put the pieces together to save Las Vegas. A few characters outside of Dana really shined in this installment, I feel like Charmaine really took a good front role both in the investigation into Dana's "murder" and in the vampire's plot piece. The other one was Ceaser Hawke who made an appearance from the OPA series SM Reine also writes. It is always fun when there are series crossovers and this one fit in really well. The next book is the last book in this series and I am looking forward to it. We think that the vampires are out of the picture now but I feel like Nissa Royal (who I really don't like) has something up her sleeve. Let's just hope Dana and Penny can have a moment of joy before the story continues.
