African Horse Sickness (Archives Of Virology. Supplementa)

Synopsis

African horse sickness virus is a double-stranded RNA virus which causes a non-contagious, infectious arthropod-borne disease of equines and occasionally dogs. Nine distinct, internationally recognised serotypes of the virus have so far been identified. This book is based upon the findings of two programmes funded by the European Commission. It will be of value not only to the specialist research workers but also to veterinary workers dealing with control and to legislators seeking to promote safe international movement of equines. The topics covered include state-of-the-art discussions on diagnostics, vaccines, molecular biology, vector studies, and epidemiology.

Book Information

Series: Archives of Virology. Supplementa (Book 14)

Hardcover: 344 pages

Publisher: Springer; 1998 edition (October 9, 1998)

Language: English

ISBN-10: 3211831339

ISBN-13: 978-3211831335

Product Dimensions: 8.5 x 0.6 x 11.2 inches

Shipping Weight: 2.7 pounds (View shipping rates and policies)
