# Besties

## Synopsis

A fully illustrated celebration of female friendship that is a gift, a thank-you note, and a love letter all in one. *Besties* smartly captures all the reasons why best friends are . . . well, the best: they help you make decisions, are there through rough patches, and will always be your +1 for awkward parties. Even more than that, best friends are the people with whom dearest memories are shared, whether trivial or meaningful. In a style that is at turns both sweet and quirky, celebrated indie artist Leah Goren illustrates the many ways in which close friendships withstand the test of time, cross-country moves, failed romantic relationships, and silly arguments. Featuring whimsical artwork and a sincere message, this is the book friends both young and mature will want to give each other to show their appreciation.

I bought this for my best friend for Christmas. I went through the book and personalized it for our relationship.

Very cute hope my bestie loves it we shall find out tomorrow

Such meaningful illustrations. I love this book!

Glue started to come undone after owning the book for less than a week.

Beautiful and so sweet, on point as a present for any girl out there, and perfect as a self gift ;)

A sweet and short illustrated book about the celebration of female friendship. The book is an endearing thank you note, gift, and a love letter to female besties. The illustrated book portrays the best parts of friendship and has a heart warming "ending". Whether its spending friday nights together, making up a secret handshake, being a +1 one at a boring party to being there at your lowest. The quirky artwork and endearing message, makes readers smile and appreciate the beauty of friendship. I wasn't sure what to expect when I received this book but as soon as I got it, I couldn't stop smiling. The drawings were cute and some of the antics of the characters were very specific. Although, I remembering all the funny and unique things I did with my best friend(s) like eating so much candy in one sitting that we had a two hour sugar high or when we went to 4 different fast food restaurant to make the "perfect meal" and them being there through all the low times of my life as well. This is a great gift for any girl bestie in your life! I gave this book as a stocking stuffer to a few friends with a private note of all the fun memories we shared. It is a great book to make you appreciate the great friendships in your life and how easy it is to take people for granted.

This book is more like a book someone wrote to their BFF, it's not a great one to send to just any BFF because it's a little too specific on what they did and do together and I can't see that it would apply to many people. The pictures aren't even that cute, sorry to say.

This is a really cute, loving, and adorable book to give to your bestie. ãçÂ™Ë; A simple gesture to remind them about how much you love and appreciate them. I instantly fell in love with this books illustrations. They are so cute, vibrant, and simple. Makes me want to start showing my artwork to book companies and seeing where my talents could go. Maybe I could make a bestie book about our relationships with our dogs. I think yes. ãçÂ™Ë; The ink of the book is a bit off from what you see online. I noticed that online, many images are either more pink or purple than they are in

person. I know it isn't a big deal, but I know that there are some people who take simple things like that very seriously. Especially people who buy these cute books to fit a certain color theme for home decor or gifts. This book is so adorable on how they show the relationship between besties. This book shows the idealistic version of besties. The cutesy shopping, yoga, and gossip that people believe is a "real bestie relationship". I know from experience that there are many more sassy and sarcastic moments than cute moments shown in this book. Or that we spend 90% of our time at her place eating, drinking, and playing video games. Let's be real. Haha. I know the artist wanted to keep things light, simple, and sweet, but I really wanted to see people's real relationships. Showing every aspect of our bond, not just the overly idealistic Clueless version. Overall, I enjoyed this book. It makes me miss my bestie. I cannot wait to send this book to her. Hopefully, she will know how much I love and miss her. TIZZYI received a free copy of this book from Blogging for Books, for my honest review. The opinions expressed here are my own.
