A popular speaker and spokesperson, she is frequently quoted by the travel media. The author of SMART PACKING FOR TODAY'S TRAVELER, Foster shares her expertise in an informative, easy to follow and entertaining style. --This text refers to an out of print or unavailable edition of this title.

Great book! I am getting so much wonderful information! Tops any of the other 'How To" books. I

just wish I had her DVD! Would love to see her in action. Get this book if you are even THINKING of traveling or buying new luggage, or before buying your travel wardrobe.

I travel quite a bit and found some of Foster's tips to be valuable. Many of her ideas are just common sense. The most valuable part of the book is choosing and packing a suitcase. With airlines cracking down on sizes of carry on bags, packing efficiently becomes more important. The book was written in 2008, so fashions and technology have changed in the past 6 years. Hopefully there is an update on the horizon.

My 2nd one.

Sent this to my mother as she was preparing for a trip to Italy. She learned a lot of helpful tips and felt more prepared for her trip. Quick shipping - Great little reference book, especially if someone's not a seasoned traveler.

I looked at the table of contents and knew it would be super easy to find what I needed about smart packing...before I even read the whole book! Susan Foster gives you concrete examples, there is no guessing! I haven't travelled in years, and I am now getting the opportunity to do so. I needed this book just to initially deal with today's current rules and regulations. But this book is so much more, and it helps you plan ahead better than you think you should.

Basic packing book. Worked for my trip. Thanks.

love this book used it every time I traveled

This book provides great ideas for light and inclusive packing. Additionally, it covers many useful travel tips in getting you to the airport, through the check-in procedures, and on to your travel destination. I learned many innovative tips that will make my upcoming journey much more pleasant. I would recommend this book to both beginning and experienced travelers.
