Adorable book! The song sounds just like the characters and the quality of the sound is very good. The cardboard pages are sturdy and the colors and pictures are really nice. It is such a nice song for your little one to hear over and over about being made special in a world where there is so much disappointment.

Love this book! The only things I would improve/change if possible are: 1)the length of the book (it's very short); and, 2) add more songs (it only plays part of one song and If your little one plays it over and over it gets very repetitive)We love [the original] veggie tales! 🍆🍅🍆🍅🍆🍅

My two year old son loves this book! He is non verbal and afraid of new things so it took a few days for him to get used to it making sound. But now it's his favorite! This book isn't a learning book but it taught my son what it means to smile, what a sad face looks like and now he points to his toes when I read "God loves you from your head to your toes!" This book has been a blessing to my son. It is a very cute book for all kids in the age frame. I highly recommend it!

We love this book! Our granddaughters love to puss the button over and over again to hear the music play and it has an excellent message especially in today's culture that tells girls that their bodies, hair, looks etc have to be perfect. God says we are perfect just the way we are, flaws and all!

This has been our 9 month old baby boy's favorite book since he was 2 months old. He loves the drawings and the mirror page, and he adores the song which he recognizes immediately. He even dances when the music starts to play. We love this book because of the positive and truthful message that our baby hears, "God made you special, and He loves you very much."

How great to have veggie tale voices reminding little one how special they are!

My daughter loves music and books-- this book was both of those wrapped up in one! she loves all these books (we have 5 so far). Even though my husband and I sing them in our sleep--- we love that she loves dancing along with music that is Christian based. We plan to buy many more of these

books!

My 1 year old triplets love this book! Only reason I gave it four stars instead of 5 is because I feel like the music doesn't last very long and starts to sound awful after only a few months. But it does get a lot of use!
