One Team: A Devotion to Quality There's just one reason our team is dedicated to producing quality travel publications; you, our reader. We want you to get the maximum benefit from your trip; and from your money. In today's multiple-choice world of travel, the options are many, perhaps overwhelming. In our guidebooks, we try to minimize the guesswork involved with travel. We scout out the attractions, prioritize them with star ratings, and describe what you'll discover when you visit them. To help you orient yourself, we provide colorful and detailed, but easy-to-follow maps. Floor plans of some of the major museums help you plan your tour.

Throughout the guides, we offer practical information, touring tips and suggestions for finding the best views of the city, a good place for a break or where to make that special purchase. Lodging and dining are always a big part of travel, so we compile a selection of hotels and restaurants that we think convey the feel of the city, and organize them by geographic area and price. We also

highlight shopping, recreational and entertainment venues, especially the hot spots. If you're short on time, two- and four-day itineraries are included so you can hit the highlights and quickly absorb the best of the destination. For those of you who love to experience a destination on foot, we add walking tours, complete with a map. And we list other companies who offer boat, bus or guided walking tours of the city, some with culinary, historical or other themes. In short, we test and retest, check and recheck to make sure that our guidebooks are truly just that: a personalized guide to help you make the most of your visit. After all, we want you to enjoy traveling as much as we do. The Michelin Green Guide Team --This text refers to an out of print or unavailable edition of this title.

I ordered on Sat afternoon & received on Monday afternoon..Thanks ..I will wear NO other Fragrance..this is a Light wonderful Clean perfect Fragrance for me.

Good book

I don't mean there is a better guide to Normandy. Maybe there isn't. But I studied this thing pretty hard for months before going. And it did not prepare me well. Great trip. Go to Normandy by all means. Go for weeks, if you can. But if you can, find a better way to study it.

Not as good as most of the Green guides, but useful

Excellent in every way. Great advice on where to go and what to see, driving routes, history and character of Normandy, helpful hotel and restaurant suggestions. A delight to read. Michelin at its best!

Michelin guide books have always been good. Good detail but can be confusing because they reference the Michelin Maps. I ordered the map after I got the book Planning on using both on our trip to France this spring..

The Green Guide to Normandy is, as expected, an effective guide to the person new to the area. I use Green Guides whenever I travel to Europe.

I recently bought two Michelin green guides before a family vacation to France - one for Brittany and one for Normandy. As we traveled, I found that these were the least helpful travel guides I have ever

used. Information in the books is not organized in a way that makes it easy to find. For example, there is no overview map with page references for more detailed maps. (Apparently if you want useable maps, you have to buy another of this company's products - maps are referenced in the guide but not included.) The maps that are included in the books contain little more than the suggested driving tours and some in-city street maps, so they are of little use for finding your way around the region. Also, the cities in the guides are listed alphabetically rather than by location, making the guide disjointed and hard to follow while traveling, requiring constant flipping to different places in the book. Even finding city names was not easy, since even the alphabetical part was jumbled (it is not based on the first letter of the first word in the name of the town or area.) The information within the guides was typical of any travel guide, but because these books were so difficult to use I will not be buying a Michelin guide again.
