Daily Math Practice, Grade 4

Synopsis

Provide your fourth-grade students with 10 to 15 minutes of daily math practice specifically developed to meet Common Core! The frequent, focused practice improves math skills, and each title includes downloadable homeschool connection activities. How it works: Students complete five short math problems on days 1-4. The day 5 activity provides more extensive practice and asks students to think critically. The 36 weeks of grade-specific skill practice covers: Operations strategies. Fractions. Decimals, Algebraic reasoning, Measurement and data, Geometry, and Word problems. This series also includes: models and tools to aid students in solving problems and answering open-ended questions, critical Common Core proficiencies for each grade level, downloadable math activities and projects to offer reinforcing practice at home, and a detailed scope and sequence chart to help teachers map units to correlated skills.

Average Customer Review: 4.2 out of 5 stars 30 customer reviews

Best Sellers Rank: #36,617 in Books (See Top 100 in Books) #57 in Books > Children's Books > Education & Reference > Math > Arithmetic #62 in Books > Education & Teaching > Schools & Teaching > Common Core #163 in Books > Education & Teaching > Schools & Teaching > Curriculum & Lesson Plans

Age Range: 9 and up

Grade Level: 4 and up

Customer Reviews

I have a masters degree in Special Education. I have taught for 12 years. I have tutored longer than that! I highly recommend this series. No complaints from the kids I tutor and they are easy to use. It is a wonderful series k-6!

Good for any age/grade/etc.,

Excellent!

The book is fine. I just can't find the time to fit it in our schedule. I wish the book were designed so that one week could fit on one double sided page.

The book was missing weeks 21-30. I would like to have it replaced. I went to make copies and those weeks are missing.

Use as a daily warm up in class. Helps students practice skills that are sometimes not included in the curriculum school is using.

I used the math problems as daily warm-ups, and the students loved it.

This has been a fantastic resource for morning work with my students. We use it every day!!
