I have been discipling people for 40 years and this is the best manual I have ever seen. It divides the discipling process into faith-sized steps and encourages the disciples to take them. It also helps disciplers to evaluate where on the road to maturity their disciples are and suggests what to do to help their disciples take the next step. It grounds its ideas in the Scripture, but then illustrates them with true stories from daily life. We are using this resource as we attempt to provide each member of our church with the kind of individualized spiritual coaching Paul says he gives each of his disciples in 1 Thes 2:11. If Roger Bannister could only break the 4 minute mile barrier after he got a coach, how much more does each one of us need personalized coaching to run the race God sets before us? The Real Life Discipleship Training Manual is a wonderful resource for the Holy Spirit to use as he leads you to obey Jesus' last command to make disciples.

I have used this workbook with multiple small groups and it has been very valuable. I do not recommend using it with a mixed group of people who are at different stages in their spiritual development. This workbook is most valuable when used with those who are highly motivated to be used by God in a relational context to influence others. Use it with leaders who want to influence others in their spiritual development. Warning this workbook will make you think differently about what it means to be a Christian and disciple others. If your idea of discipleship is sitting around with a bunch of other Christians discussing obscure aspects of theology or having an innocent Bible study with little life change then this will challenge you. Great workbook for a pastor to use with his deacon or elder board.

This is a much needed and excellent resource for Christian leaders equipping others for the work of discipleship. It is a 12 week study with practical applications for participants to grow spiritually in discipleship. It is not intended for brand new believers, rather it is geared toward believers who have some maturity of faith and are desiring to learn a practical way to disciple others. I've used the book with several groups now and will continue to use it. I would give it 5 stars for the content but the binding on the edition I purchased is terrible and the book began falling apart during my second time using it. We purchased quite a few and all of the bindings are terrible. But again, the content is worth figuring out how to keep the book itself together.

Fantastic for weekly group studies, especially with a good group leader who is discipling you. As someone who's been on an ACTS retreat, this should be the study guide for those Christians after

the said retreat or planning on being on an ACT team. Same for those involved in Walk to Emmaus, the Methodist retreat, because both retreats were born from the Cursillo Movement in Spain of 1949. I only took off a star, because the binding can be undone rather easily when laying the pages flat for reading and writing, at least with my copy.

I love the book. I enjoy reading and learning from the book.

This is a great training tool for church leaders and church members. No, in fact, this is not a new radical way to share the gospel...but it is a great tool that effectively communicates biblical principles on making disciples. Yes, it is a "workbook," and with the right leader facilitating the group, this can have a great impact on people. We've gone through it with our church staff, elders, deacons and are now starting a new group every month for our church members. This is a great tool.

Lots of practical insights that take into account the level of maturity of those whom you mentor, including their motivations and understanding and wisdom.

This series is great. We used this workbook for our men's discipleship class, and the presentation and material is straightforward and comprehensive. We had a lot of discussion about it. We will use the material again because we liked it very much. I purchased the Kindle version of the workbook (can't write in it) but I could look at it on my computer or on my Kindle.
