Synopsis

Free with Kindle Unlimited...Enjoy the complete Volume 3 of the Gray Wolf Security series. Romance, Suspense, Mystery and a touch of Comedy. 5 Books. No Cliffhangers. More than 1,000 pages :) HANK I'm a cowhand. I've never pretended to be anything more, but that didn't give her the right to pretend that I wasn't smart enough to have read all those fancy books she taught her students, or that I wasn't brave enough to have served my country. Her and her privileged background "what did she know about working for a living? What did she know about pride and bravery? But there was something about her, something irresistible. And when she got herself caught up in the middle of the very first case Gray Wolf Security's newest office was assigned to handle "that I was assigned to handle "I couldn't quite find a way to keep my distance from her. Would I have kept my distance if I'd known I'd have to make a choice between her and Sutherland Knight, my best friend's widow, and my boss? What the hell have I gotten myself into? GRAINGER I grew up on a farm, but I left there the moment I could to join the Navy and then I got myself engaged to a Santa Monica beauty. The last thing I wanted was to be shipped off to Wyoming to go back to the life I'd left behind. But here I was, pretending to be married to a short, curvy woman who was nothing like the beauty who ran off with my best buddy. I don't know why Ash Grayson would think joining this new satellite office of Gray Wolf would help heal my broken heart. Yet, there was something beautiful in the simplicity of small town life. And Eve Spraberry might not be the angel the town seemed to think she was, but she was angelic enough to distract me from the life I left behind and that was kind of the point, wasn't it? LANCE Becky was a mystery from the moment I set eyes on her. I knew she was a single mother and that sometimes came with some wariness, but her resistance to my charms was extraordinarily strong. She wanted me "I could feel it in her kisses "but she pulled away when things got too deep. I could never have imagined, however, how dark the mystery really was. No one could have guessed that Becky, MidKnight Ranch's reliable employee over the past five years, was on the run from the FBI. Yet, here we were, running from an FBI agent, sleeping on the frozen ground and planning on abandoning everything we'd ever known "including her daughter. What had I gotten myself into with this woman? And how was I going to get out? Did I even want to get out? CLINTON I came here for my own reasons, the job just playing a secondary role to my prime objective. It was fortuitous when the Mahoney raid was suggested and my captain gave me the opportunity to take part. After all, I'd worked with the DEA in Florida, at least as far as he knew. Taking down a drug operation like the Mahoney Cartel should be just a walk in the park for me. I didn't anticipate it turning into a complete ambush or that she would be the one to come to my rescue. She was beautiful and

resourceful, but she was a distraction. I couldn't let anything stand in the way of me and my prime objective. SUTHERLANDIâ™m a widow. Iâ™m a mother. Iâ™m a rancher. Nowhere in that description is lover or savior. But some cosmic force thought it would be hilarious to throw in the Hollywood hunk next door at the same time some massive criminal organization decides to kidnap my dead husbandâ™s best friend, my mentor, my friend. To add to the list, someoneâ™s been sabotaging my ranch and someone else has been stealing secrets from my office and giving them to the enemy. Or maybe itâ™s the same person. How am I supposed to figure it out? Iâ™m too busy falling into bed with the Hollywood hunk and trying to figure out where Ashford Grayson is being held while making sure the cattle doesnâ™t burn up in a grass fire. All in a dayâ™s work? Welcome to the chaos.

When Ashford Grayson father of the original Gray Wolf Security agency found out that his late best-friend's widow, Sutherland Knight was having financial trouble. He and his brother David came up with an idea to help her without directly offering her the money. They proposed her to run the new Gray Wolf Security branch they wanted to open in Wyoming. Kirkland Parrish and his wife

Mabel moved to Wyoming to help Sutherland start up the agency. Hank Hank Stratton, a former military man was the cowhand on the MidKnight ranch, he was rough around the edges but he had a gentle soul. Many people assumed things about him especially the sexy, beautiful teacher and GWS 3 first client...Miss Jonnie Frakes! Jonnie Frakes was a teacher who found herself scared out of the schools in the evening by some vandals. Realizing the reality of the situation, the school board turned to GWS 3 for help. Something Jonnie knew nothing about until the day the handsome and sexy as sin, Hank Stratton came to the school. When Jonnie unknowingly hurt Hank's feelings, she went out of her way to make things right with the man she wanted to get to know more about. Hank was hurt cause he remembered the cruel words from someone from his past. He too apologized to Jonnie for the way he acted. There was a mutual attraction between Hank and Jonnie but the former kept pulling back from the latter because of past hurts. In the end Hank finally gave into his feelings and went after what he wanted...Jonnie. The culprits of the school vandalism turned out to be people they never expected. Gray Wolf Security 3 solved their first case which felt amazing but there was still trouble brewing on the ranch. Grainger Grainger North grew up on a farm in Illinois and he wanted nothing more than to be far away from it so when he had a chance he joined the Navy. He was married to a beauty who ran away with his best-friend which made his former boss Ash Grayson relocate him to Wyoming. Being far away from Santa Monica and the people who'd hurt him deeply was welcomed. Grainger was assigned a case that required him to pretend to be married to a beautiful, smart and curvy woman by the name Eve Spraberry. Eve Spraberry ran her family motel in Midnight, Wyoming and was taking care of her ailing mother. When some outside developers decided to buy out everyone around the motel and even Eve's business, she refused to cave in much to the developers' dismay. They turned to hurtful and dangerous tricks still Eve stood her ground. She turned to Sutherland and Gray Wolf Security 3 for help. Eve had to pretend to be married to one of their new operatives Grainger North. The first encounter between Grainger and Eve was very interesting. Grainger never thought he could ever be attracted to Eve but as they spend more time together and he got to know about what kind of a person she was from what people told him. He began to have a whole lot more respect for the beautiful and independent woman. Let's just say that the feelings were mutual for Eve. As the developers took another approach to get Eve's motel, she and Grainger took a very huge and important step. But that didn't stop the danger that was lurking around them. With the help of the other GWS 3 operatives, Grainger took care of those that wanted to harm Eve. Lance Lance Griffin found single mother Becky Kay to be mysterious, he wanted to be the one to discover all her secrets but the woman was wary which was understandable. Though they were attracted to each other, Becky always pulled away

when things got too heavy between them. And Lance wanted to know why. Becky "Becks" Kay was on the run from the FBI, she was working on the Midnight ranch as the vet tech. She and her ten-year-old daughter, Cassidy were grateful to Sutherland for she'd done for them. But her past was catching up with her and she didn't want to hurt the people she'd come to know and love as her family. Becks whose real name was Vivian Carlotti had ties with the Mahoney crime family. Yup the same family who was connected to the Russian cartel that the original Gray Wolf Security went to war with. She had a very tough time after her father found himself in trouble when she was a teenager. Becks' past came back to haunt her but with the help of the man she lost her heart to, Lance and the GWS family she was able to stand up to her biggest fear. Clinton Clinton "Clint" Butler was a DEA agent who went undercover as a detective Burrow in the Casper PD. He had been working on bringing down the Mahoneys for some time now and he was about to let anything nor anyone distract him from his goal. Well all that changed when he met the sassy and beautiful Gray Wolf Security operative, Ryan Babcock. Ryan Babcock, one of the newest operatives at Gray Wolf Security 3 was a former Marine who had a thing for men in uniform. Her little fetish nearly got her in trouble many times. After her second tour she tried being a cop in Seattle but things didn't work out there. So when she heard GWS 3 was hiring she jumped on the opportunity and headed to Midnight, Wyoming. When Ash Grayson and his operatives joined forces with the FBI and the Casper PD to catch the Mahoneys, things went horribly wrong. Many were injured some were dead and others were missing. Ash, Ryan and one of Casper's detective were among the missing. There was a mole within the Gray Wolf Security 3 branch, Ryan and Clint found themselves in more peril than they thought while Ash was in the hands of his enemies. As Ryan and Clint grew closer, they both were keeping secrets from each other. When push came to shove they turned to the people Ryan called family. Turned out Clint had a deep connection to Sutherland. There was still a lot of things for the GWS team to figure out. To be continued..... Sutherland Sutherland Knight was a rancher, the boss of the Gray Wolf Security branch 3 in Wyoming. She was a mother of a twelve-year-old daughter named Elizabeth and also a widow of one Ashford Grayson's (ASHFORD) best-friend, Mitchell Knight. She didn't have time to date that what she said but fate had a different plan for her. Her handsome and sexy as sin Hollywood neighbor, Bodhi Archer whom we've met since the beginning of the series wanted to woo her. In spite of her resistance let's just say that the man was a real charmer and he'd awakened a part of Sutherland that she thought had died with her late husband. Bodhi Archer had a rough childhood, he got adopted by some amazing parents now he was a Hollywood star who wanted a little bit of normalcy in his life. And he found it when he moved to Midnight, Wyoming and met his neighbor, Sutherland Knight. For the first time in his life,

he was able happy to have a woman resist him. She challenged him in so many ways but now the past was about to destroy his present and future. Incidences had been happening on Sutherland's ranch that she didn't like, someone was betraying her and her team by selling information to their enemies. Ashford Grayson was still kidnapped and she was determined to find her mentor/friend and protect Becky from the Mahoneys, come what may. Bodhi was hiding something huge from Sutherland when she found out she felt betrayed and used rightfully so. But in the end it all came down to trust and she trusted him to never withhold anything from her again. GWS 3 went and rescued Ash on their own but taking down the big boss was down by the Gray Wolf family. Together they were stronger than the enemy thought. GRAY WOLF SECURITY, WYOMING Volume 3 is the third boxset in Glenna Sinclair's GRAY WOLF SECURITY series. It was action-packed, exhilarating, sexy and emotional. Glenna Sinclair did an incredible job. I recommend you guys give this series a try. Two thumbs up! P. S. Loved the mentions of the Gallahans ;).

I'm taking it for granted that this is the last series for Gray Wolf by the way it ended. But I could be wrong. Lol. This was a very good series to go with the others. Loved the storyline that went through the whole series. The characters were great. I felt the connection with them all just like I did with Ash and the first set of characters. Really good series. I only had one thing I was not happy about. I have read ALL of Ms Sinclair's books and this is the first book that had poor editing. It was a little distracting at times, but not enough to change my 5 star rating. I still loved the books and will always read anything that this author puts out. Highly recommend anything from this author. Amazing writer!!!!

The reason for only 3 stars is the lack of proof reading. There are many errors. Not misspellings, but grammatical. There IS a difference between were and we're. Between think and thing. Between I'd and it'd. You get the idea. If an author read out loud a completed book they were going to publish all of the errors would be found and corrected before publishing. I enjoyed the storyline, enjoyed the characters. Really liked the development of suspicion in the last book although I did think the ending was anticlimactic. For the value, you really do get lots of story and pages. I will try another by this author and hope the proof reading is better as I do like the way Sinclair writes if I exclude the proof reading errors.

You know when you get another Gray Wolf book to read it is going to grab you by the throat and by your gonads and hold you until the final page and this book had the complete series of them in

Wyoming so it kept me reading for two days and loving every page and trying to get back to it when I had to leave its side! WHew! That was a long sentence but didnt know how and when to stop it! Do not know where Ms Sinclair will be taking us next but sure am looking forward to it. I have read all her series now and each one left me wanting more! I will miss all this fabulous people as feel as they are my friends now. le Sigh...

I couldn't put this down. Of course that ment a few late nights. These stories help the reader understand some of the day to day workings of the agencies that provide security among other services. Our government needs all the help it can get to protect all citizens. The people that do this kind of work should get the same respect that or service men and women deserve. That also goes for law enforcement people. The author has me on the edge of my seat thru out this series. Looking forward to reading more. Thank you.

Good story with strong characters. No idiotic women like so many in today's stories. Give this a try, you will not be disappointed.

If you're this far into the series, you know the stories are fun and romantic. But the editing in this collection was sloppy. No typos SpellCheck would find, but the wrong words everywhere ... think instead of thing, there's instead of theirs, words missing everywhere, and wrong pronouns like she instead of her, he instead of she. Not enough to totally disrupt the flow, but jarring in places. Hope it gets a re-editing one of these days.

A satellite location for Grey Wolf. This is a series of five stories covering the primary characters that are key to this organization and the story. The storyline for this new series is just as intense and suspense and loaded with ongoing action.
