## Customer Reviews

Why I chose this: I chose this book for my kids because the boys were tired of typical fiction books!

They wanted something "real" and I wanted something that they would still understand! My

Thoughts: Whose Hat Is This? was a really adorable look at commu --Children's Book Review

PWB Biography: Sharon Katz Cooper has written more than 25 books and articles for children. She has also written several books and articles for adults but those are less fun. Several of her books have been finalists for the Association of Educational Publishers (EdPress) awards. Sharon lives in Fairfax, Virginia, with her husband, Jason, and her son, Reuven. She likes to cook, travel, wear hats, eat chocolate, and read other children's books. In her spare time, she helps to design museum exhibits. CPB Biography: Sharon Katz Cooper is a writer and science educator. She enjoys writing about science and social studies topics for children and young adults. She lives in Fairfax, Virginia, with her husband, Jason, and son, Reuven.

The information and illustrations are amazing, BUT they become very overwhelming when

competing with "shared" layout pages. The reader cannot enjoy exploring one hat without being distracted by the next hat on the joining page. As a kindergarten teacher, I will have to bend the book back to minimize the distractions from the oncoming page if I choose to use this book as a Shared Read-a-Loud. If this is a pattern for ALL the "Whose Is It?" Books [Picture Window Books, Capstone Publisher], this will be my ONLY purchase.

I read the story to my first graders and they got very excited about guessing who would fill the hat. I only gave it four stars because I really think the author could (and should) have added a few more hats. I did like that the author "mixed it up" a bit putting women in non-traditional roles.

Grandson loves!

My preschool students really liked this book! They requested that we read it 2 more times after I originally read it to them. It can get a little tricky when they try to read ahead on the next page. I had to keep folding the book over so they couldn't see what was coming next.

Really fun for teaching jobs and of those who work in our communities. It's really fun to let the kids (I used it to teach kindergarteners) guess who and what the profession is. Highly recommended for teaching about different jobs.

My 2-year old loves this book. I am underwhelmed with the images and info. It is very simple, but he loves it and there is nothing offensive about it.

Great little book to go along with community helper themes my tot is learning. It's simple for toddlers and advanced enough for up to 6. For boys and girls alike!

This book was not what I expected. It seemed like promotional material that an energy company would send out free of charge. The story was not really a story.
