## Synopsis

Ok... I'm a foster carer who doesn't want this placement. The department of Social Services know just how to apply pressure... Oh yes... they get one very good, very friendly, very experienced social worker that I happen to have so much respect for, to make the call, knowing, just knowing that I will possibly surrender and agree to share our home with a child that, to be honest, was the last child in the world that I felt capable of caring for... Felt capable of feeling anything for... Felt capable of... anything to do with her. Mmmm, sometimes I'm so bloody shallow you see. I don't want people to look at me as I go about my business. I don't want strangers giving me pitying looks or hurrying past pretending they haven't looked in my pram. I don't want to give up any of the precious time I spend with my birth children and husband. I want my life to stay just as it is. Happy and contented. Oh the lessons I was about to learn.

This book will tear at your heart strings.... Foster Carers like Lizzie Scott are Wonderful, Caring people who need more recognition.

This was a great book. This world needs more Lizzie Scott's to take care of our children that are harmed by parents. It's just blows my mind how someone can do that to a baby

What a sad, sad, story. The sad part is probably she should not have been brought back to life after being shaken so violently. She would not have had to go through epilepsy or any of the other things she did go through. So thankful she had such wonderful foster parents to watch over her!!!! God be with you is my prayer. Mia rest in peace.

Great read. I didn't thin at first that I like it but was entranced by the writer's depiction of her love for this child.

MIALizzie Scott's 2nd novel is even more compelling and gut wrenching at times, but I just couldn't put it down. Again the writing style that Lizzie Scott creates is a fly on the wall. We see her and the family struggle for a six-week period as they take on the adoption of a baby who has some serious health problems. The diary section is so incredible that it will send a tear to your eye, guaranteed. Is there anything else this novelist cannot do? She has a 3rd novel in development and again I cannot wait. A must read!S. Smith Greenway Entertainment

What an incredible read. I could not put this book down, i cried through most of it. I could not begin to imagine how painful it must have been for Mia, her mother (not birth mother) HER TRUE MOTHER and all of the family. I cannot understand how our society can allow these things to happen and to give the birth mother any kin d of rights to Mia. All i can say is Mia's life was made truly special by the people who cared for her, all involved are an inspiration and deserve only good things to happen to them in life which is more than i can say for other people i do not need to mention who they are.

Really enjoyed this book. There were times I wasn't able to put it down. Will definitely follow Mrs Lizzie Scott
