# Lippincott Textbook For Nursing Assistants: A Humanistic Approach To Caregiving

## Synopsis

The Third Edition of Lippincott Williams & Wilkins' flagship and cornerstone basic textbook of nursing assisting. This engaging, ancillary-rich text is intended as the basic training resource for the Nursing Assistant course which generally encompasses 120 hours of training. Three key beliefs form the basis for the textbook: 1. Students need a textbook that captures their interests and increases their desire to learn. 2. Graduates of nursing assistant training programs must be able to provide competent, skilled care in a compassionate way. 3. The nursing assistant is a vital member of the health care team.

## Customer Reviews

Bought for daughter for her CNA course .

I bought this book for a class. It is well written and easy to follow. It does a good job of explaining everything (although in my mind most of it is basic common sense). It also has very detailed procedural pages at the end of every chapter to help you learn the steps you need to follow. My only real complaint is that the tables and "info boxes" and "guide boxes" are both labeled using the term "Box". It seems a little nit picky but, it is annoying to sort out the different "boxes" when looking for information. The service from this seller was excellent. I received my item in a timely manner and in excellent condition at about half the price that my classmates paid for their textbooks.

I order this book for a coworker she could not believe the price, Now she is a member as well. thanks for your loyal service for a student ;like me who needs all the help she can get when it comes to books and little money.

Excellent learning tool. I passed my exam and now I'm officially a CNA.

In great, near perfect, condition. Arrived early and with additional study material not garenteed to be included. I am very satisfied and thankful.

The e-book is fine but the numbering of the pages is so off that it makes the e-book hard to use in a classroom. I wish they kept the numbering the same as the paperback book.

This book was described as used condition with some wear and when we recieved the book it looked brand new except for a couple of highlighted pages but that was very helpful to my son. Thanks for being so honest about your book. Will definitely buy from you again.

I am still using this bood and I am very glad I bought it instead of renting it. When I am done I hope to pass the test with out taking the course. I have been working in health care most of my life it seems. So was very glad when I found this book it explains things in every day lang. and makes it easy to understand and pick up the lang and termanalogy needed to work in this field.
