Finite Mathematics For Business, Economics, Life Sciences, And Social Sciences (13th Edition)

Synopsis

&> Note: You are purchasing a standalone product; MyMathLab does not come packaged with this content. If you would like to purchase both the physical text and MyMathLab, search for ISBN-10: 0321947622 /ISBN-13: 9780321947628. That package includes ISBN-10: 0321431308 /ISBN-13: 9780321431301, ISBN-10: 0321654064/ISBN-13:978032165406, and ISBN-10: 0321945522/ISBN-13: 9780321945525. MyMathLab is not a self-paced technology and should only be purchased when required by an instructor. Barnett/Ziegler/Byleen is designed to help students help themselves succeed in the course. This text offers more built-in guidance than any other on the market “with special emphasis on prerequisites skills” and a host of student-friendly features to help students catch up or learn on their own.

Book Information

Hardcover: 704 pages

Publisher: Pearson; 13 edition (January 16, 2014)

Language: English

ISBN-10: 0321945522

ISBN-13: 978-0321945525

Product Dimensions: 8.6 x 1.2 x 10.9 inches

Shipping Weight: 3.4 pounds (View shipping rates and policies)

Average Customer Review: 4.0 out of 5 stars 21 customer reviews

Customer Reviews

Raymond A. Barnett, a native of California, received his B.A. in mathematical statistics from the University of California at Berkeley and his M.A. in mathematics from the University of Southern California. He has been a member of the Merritt College Mathematics Department, and was chairman of the department for four years. Raymond Barnett has authored or co-authored eighteen textbooks in mathematics, most of which are still in use. In addition to international English editions, a number of books have been translated into Spanish. Michael R. Ziegler (late) received his B.S. from Shippensburg State College and his M.S. and Ph.D. from the University of Delaware. After completing post doctoral work at the University of Kentucky, he was appointed to the faculty of

Marquette University where he held the rank of Professor in the Department of Mathematics, Statistics, and Computer Science. Dr. Ziegler published over a dozen research articles in complex analysis and co-authored eleven undergraduate mathematics textbooks with Raymond A. Barnett, and more recently, Karl E. Byleen. Karl E. Byleen received his B.S., M.A. and Ph.D. degrees in mathematics from the University of Nebraska. He is currently an Associate Professor in the Department of Mathematics, Statistics and Computer Science of Marquette University. He has published a dozen research articles on the algebraic theory of semigroups.

1

Just what my daughter needed for class at a very good price!

Excellent book for business!

Great Material - Easy to read

Very good for my math class.

Good condition

I'm not the best in math but I have had other math books which do a better job explaining the problems and giving clear directions. This book needs to be rewritten and more examples. My other class mates have formed this same opinion.

It's a good book but it would be better if it had better examples of the problems.
