It is a beautifully laid out book, with clear, concise recipes and notes. I bought it because of all the cookbooks I owned, I didn't have one specifically for dairy. I have used it several times since I bought it and will continue to use it in the future. I recommend this book very highly.

I have the whole collection of Leah & Victoria's cookbooks. I get so excited when another one comes out. It's been such a wonderful series. Amazing pictures and extremely practical & useful recipes. It's a must have for every kitchen. Looking forward for the next one!

Great Cookbook - Lots of easy and neat ideas

Not that many recipes. Was hoping for something more comprehensive.

Not impressed . I gave it away.

This cookbook will make your mouth water! The images are amazing and each page unfolds another surprise as it comes to creating and providing delicious meals for your family. I tried the Baked Roasted Ziti Pasta and was very impressed with the flavor that this recipe provided and also how much both of my girls enjoyed this. The recipes in the book are definitely easy to follow and the resulting food created is flavorful and very filling. I am looking forward to trying more recipes in this book for the foreseeable future! \*I received this for review - all opinions are my own.\*

Wow! these recipes are just so delicious, and they're really well explained and easy to make for anyone I show them to.

All I have to say is yummmmmmm! I am basically a straight forward, not such a fussy cook. But I have to say that this cookbook is a winner. I made the cannelloni with cream sauce and it looked

(and tasted) as if it came from the kitchen of a 5 star restaurant. The ice coffee is now standard in my refrigerator. Can't wait to buy more of these cookbooks!
