This is an excellent read for elementary school students! As a parent and as an educator, I highly recommend this book as it provides a detailed history of Clinton's career.

I love these books. I'm constantly looking for interesting nonfiction texts for my classroom. These are perfect for my third graders and they can not get enough of them. Kids are constantly coming up to me and telling me new facts that they have learned from the books in this series. Great for science, reading, social studies, history, vocabulary, etc. Highly recommended!

A great reader for kids to learn about the first female candidate nominated by a major party for president. It goes through her whole life and highlights the trailblazing path she carved in the world.

I originally bought this Early Reader for my five year old daughter who immediately loved it. I was surprised that this book quickly became a favorite of my eight year old daughter's as well. It has served as a great primer for both of them on Hillary Clinton. Regardless of your political opinions, it is a worthwhile read for everyone. We highly recommend this book!

I'm collecting books about Hillary. She is my candidate.

My girls (almost 9 and 6) both love this book. It provides a very good overview of the life of an influential and admirable woman in modern American history. Girls need accessible books about remarkable women to look up to, and this is a great one.

well written (Shana Corey) & a great book! My girls needed to remember HRC after the election!!

Love this book!
