## Customer Reviews

Highly recommended. Read it and then watch the news. Pretty dry, but very informative.

I'm a spy now. Clearly this is all you need to be the next bond.

This is the real guts of true strategics from a military perspective.

Strategic, Broad-based Training manuals are difficult to find in terms of applicability-this book provides such information! As a Special Forces Operator and Army Military Intelligence Officer, I endorse this book! It isn't going to provide "in the weeds" details but it WILL provide great material to understand as operational planning requires. This definately belongs on the bookshelf-I guarentee it won't collect much dust! It is interesting and gives superb detailed considerations for any operational need.

thank you
