Steve Harper is a third-generation Kansan living in Newton on land owned by his family for generations. After serving as an instructor in graphic design and journalism at Wichita State University, Steve joined The Wichita Eagle newspaper as director of photography. He later became the newspaper's outdoors editor, a position he still holds today. A series of successful day trip columns inspired Harper to write more about the state he loves so that others could enjoy the beauty of its roads less traveled. Steve also serves as a guide on his own Kansas bus trips.

Book looked oldish. Pictures were great but information was so so. Too expensive.

Looking forward to exploring Kansas

I have only now become aware that my dad's book is available on , as I haven't seen it in any bookstores for some years now. For those who don't know, my father passed away in 2000. I miss him dearly, and personally, this book helps me keep him alive in spirit. To steal an excerpt from one of my own poems, "Great American Desert," "I walk in his trail to keep him alive; in this great land, I will survive." You see, my dad instilled in me a love and appreciation for Kansas that too few Kansans or non-natives lack. Most see Kansas as a desolate, dull, flat state lacking in the "typical beauty" that one would find in a lush, or mountainous region. Although Kansas is not entirely flat as anyone who has lived in Manhattan in the Flint Hills would know, I do not believe that "flat" should be used pejoratively. I find the openness to be a tranquil, sweetly vulnerable place providing much needed solitude. The prairie is a wonderfully mysterious but simple place, where I go to be with my father. This book is a door to all of those wonderful places that many people don't even know exist! Beauty is indeed in the eye of the beholder, and perhaps people are becoming numb to the overstimulation of places of "typical beauty", but no matter who you are, I believe that everyone has the potential to see and recognize the bountiful beauty that is Kansas.
