## Customer Reviews

My child enjoys working in this book. It challenges my child, and it also keeps their interest.

I am a high school special education teacher. I use these every day as my start up activity. I have digitized these and I project them on a Smartboard. The kids come up to the board and write on the virtual copy-- no clicks- no paper. To those who created these great books-- Sell a digital version! It's a pain for me to scan these.

I purchased this book for grandchildren and it really helped them a lot. I would recommend this book to all.

I use this every day for "morning" or "bell" work. Then we review it during W.I.N. time. It's a great way to check for skills and get information for mini-lessons.

goof

A coworker of mine recently let me borrow this book and I immediately bought my own copy! In an educational world filled with state and national testing, it feels good to spend some time 'getting back to the basics' of spelling and grammar. These simple exercises make it possible without taking too much time away from your original lesson plans. I give the exercises as a daily warm up activity for my 7th graders (with a 5-10 minute limit). I highly recommend this item for middle school English/Language Arts teachers.

This is a great book. It is a wonderful way to start the period off. Students are ready for the rest of the period after this practice.

Arrived as described and on time.
