THE BUNDY SECRETS: Hidden Files On America's Worst Serial Killer

Synopsis

Rare Revelations Of A Murderous Rampage Within the pages of THE BUNDY SECRETS: Hidden Files Of America's Worst Serial Killer is a unique, never-before-published look at the investigations undertaken to stop the depredations of America's most infamous serial killer, Ted Bundy. Presented here in an easy-to-follow chronology are the raw, unedited and most fascinating official case files as they appeared to the detectives from the Pacific Northwest to the Rocky Mountains to Florida. Book Three In Sullivan's "The Bundy Trilogy" THE BUNDY MURDERS: A Comprehensive History, the first book in Sullivan's comprehensive trilogy, was a dramatic narrative of the killer's life, and book two, THE TRAIL OF TED BUNDY: Digging Up The Untold Stories, was dedicated to recollections of various friend, witnesses and detectives associated with Bundy. Now, THE BUNDY SECRETS, completes Sullivan's opus by presenting readers with a "just the facts" rendition of the formerly classified files of the manhunt, as well as contemporary interviews, gathered by Sullivan from dozens of sources along Bundy's trail of terror. A must-have for true crime students of Ted Bundy.

good book - again wish there was more detail

Another great book about Ted Bundy, with information never shared until now. Just when you think you know everything there is to know, along comes Kevin Sullivan to share things you've never heard, or read, before.

As always, you can never go wrong with a book about Bundy. He is truly a fascinating case and I never fail to learn something new in each book. Well written and if you are a true crime fan it will have you hooked from the start.

I'm glad I bought this answered a few questions I had I want get the book about this man.

VERY BORING! I wanted details on murders...guy riding old BUN to another pay day.

I have read all 3 of Kevin's Bundy books. I have a keen interest in this particular killer and I try to find out as many facts as possible. Good job Kevin.

This entire trilogy is a must read for those interests in Bundy. It is hard to find such accurate information and a book as well researched and with as many previously unpublished facts as the entire trilogy has. This third book is different but just as interesting and well written as the first and second.

I guess we will never know what actually made someone like Bundy do what he did. Personally I don't think Bundy knew and being a consummate liar and a chameleon didn't offer much in the way of insight, either. Just my opinion. If you want to peek behind the curtain and read surveillance notes from police files, this would be an interesting read.
