I give the 5 stars to the beautiful craftsmanship that Sabuda does with these pop-up books! The characters are wonderful pop-up versions of the characters in the Narnia series! I admit I have not read all the Narnia books but this book could encourage me to read the ones I haven't read! One thing I've learned from ordering Sabuda's books is it's a good idea to always have a bottle of Elmer's glue handy to repair little tears that I might find in the new book copies. It could just be a small foot torn partially away from the page that would make the figure stand up in the book( which was the case with a standing bird on the last 2 pages of the DINOSAUR ENCYCLOPEDIA POP- UP BOOK) or a dragon's claw torn partially away from the cardboard of the 2 page spread of DRAGONS AND OTHER MONSTERS pop-up book. In both cases I repaired the small damage and those same pop-ups look perfect now! The most repair I had to do to a pop-up was with Sabuda's BEAUTY AND THE BEAST pop-up book. Read my review of that book on .com. But getting back to this book, the Prince Caspian 2 page spread looks great with great poses on Caspian and his old wise teacher if I remember right. But Caspian's sword was sticking out of the pop-up book closed which sort of amused me because I remember attaching more flat cardboard to the front and back of my pop-up covers of pop-ups I made years ago to cover up any parts of my pop-up illustrations to keep them from sticking out! It's not easy to keep everything in a pop-up picture display from sticking out when the cover is closed! I think the guy who put this book in a plastic bag, pushed the sword inward into the book which caused a tiny tear where the blade of the sword sticks out from the handle! Also the wraparound chain mail collar around Caspian's neck keeps his head from going all the way up. After I push down the collar his head goes up and he can then blow his horn! Moving the pages up and down a little causes Caspian's head to bob up and down, blow his horn and wave his sword while a dwarf soldier thrusts his short sword in the air and the old wise man waves the royal flag over his head! Amazing! The other pop-ups are amazing too such as the 3D pop-up of Aslan looking like he's talking right to you or the Horse and his boy with galloping action! These really show Sabuda's inventiveness and imagination! I wish his Peter Pan pop-up book got to my house today like this CHRONICLES OF NARNIA pop-up! Oh well, I'll get the glue to fix Caspian's sword!

this book is absolutely amazing and successfully delivers what it sets out to do. the illustrations are very colorful and beautiful(more suitable for children than adults, but i'm sure an adult can still appreciate the artwork) and well printed. the book itself is robust and solid. of course, the most

impressive part of the book has got to be the pop up engineering technology. Robert Sabuda really pulled it off this time in creating pop ups that keeps its readers in awe (such as the door opening when you flip a small page located somewhere near the door, a horse running as the reader flip the page, an owl flying (popping up) high above the book, and the last page where many characters from narnia popped out like a big family photo shoot).as for the down side, there are one or two pop ups which does not produce a smooth popping out and retracting (due to the complexity of the pop up), so readers ought to be careful and make sure the pop ups retracted in the right position before flipping over a page (or the pop up may get torn off due to collision with other props). overall, it's still a very good pop up book for both fans of narnia and a must have for pop-up book collectors!

This book is amazing!!! I bought it as a gift for my daughter because I introduced her to my C.S Lewis Narnia books a couple days ago and she fell in love. This book is full.of vibrant pictures and every page is fully detailed and well written. I can't wait for her to open it come Christmas.

This pop-up book is awesome! This year for Christmas we bought our children something they want, something they need, something to wear, and something to read. This and the Wizard of Oz pop-up were hits and declared one of the best gifts! There is tremendous detail in each page that matches the story line. I highly recommend this book!

Amazing pop up book! the pop up art is fantastic and fairly complex.My only complaint is this book is arranged in the chronological order of the Narnia books, I prefer the release order of the books. But still it is a beautiful pop up book, and a great way to introduce little ones to the series.

This book is a work of art. There are so many details. Beautiful!

This is a beautiful pop-up version of the classic CS Lewis tale. The pictures are well designed and the pop-ups are clever. However we bought this to keep as a collector's item on our display shelf. I would not have the kids look at it unsupervised as it fragile and easily torn. This is the kind of book to share with your kids together and then put back on the shelf. The top shelf...Highly recommended for lovers of CS Lewis....

This is one of the most Dazzling pop-up books I have ever seen. So fascinating just looking at it would keep any child and likely adult enthralled for quite a while. But of course on top of it is also the

story with is a huge bonus. I would recommend this for any age as long as the child knows enough to treat the book well. It would be a book to treasure and keep in your family for years and share with your grandchildren.
