Daily Food Journal is easy to use! This simple

guided notebook will help you track caloric intake and expenditure by providing a private place to record meals, snacks, and exercise. Uncluttered daily logbook pages make keeping track of

meals, snacks, fluids, fruits/veggies, and activity a snap. Adaptable for popular weight loss programs, too! Bite it and write it...here! Studies show that tracking what we eat and drink each day is one of the best ways to manage weight and health. In fact, recording what we eat and how we exercise can help us lose up to 50% more weight! Writing down what we eat keeps us honest about our actual consumption, which helps us stay on track to achieve our goals. Tracking made easy. Each day, start by writing down the date and circling the day of the week - Su, Mo, Tu, We, Th, Fr, or Sa. (Miss a day? No worries!). Record what you eat for 3 meals and 3 snacks. Write down amounts and calories for each. Also record your water consumption (check off up to 8 Cups of Water) and those healthy Fruits/Veggies (check off up to 8 servings). Finally, note any Exercise, its Duration, and Calories burned. Plenty of space. Make notes about your progress, changes in your weight, and experiences you have along the way. Note your weight at the beginning and end of the logbook, and evaluate how keeping track of your consumption has impacted your progress toward your goals.

could afford. Today, still family owned and operated, Peter Pauper Press continues to honor our founders' legacy - and our customers' expectations - of beauty, quality, and value. Image: Peter Pauper Press headquarters, Mount Vernon, New York, circa 1948.

It's perfect for simply writing down your calorie intake and daily exercise. Small and discreet. If you want to keep track of much more, then this is not the book for you. I wanted something simple, and I found it. The label comes right off so no one has to know what it is for.

Awesome little book! Fits perfectly in my purse, but also plenty of room for my super large handwriting! Also has a handy bookmark :) I love how it lets you decide what day it is. You get to circle a day so it's not pre listed. I always hate that bc if you miss a day it's a wasted page

Great little book. Wish it had more pages. Simple and easy to use. Not cluttered with a lot of unnecessary STUFF.

I am just starting to use it today to replace a journal from a Health Quest. It has places to record meals and snacks, including calories, to keep track of glasses of water and exercise too. However I do not recommend this for people who have trouble reading small print. The book measures 4 x 6 inches.

A straightforward journal to log food. Just what I was looking for. The paper and binding are good quality. Enough space to list ingredients for each meal. I only wish that there was a separate place to add daily total calories and bit more space under exercise as well, so that I can work out my net calories. Another suggestion would be to include some empty pages for notes at the beginning and the end (2-3) so that I can set target dates and so forth. I am quite happy with this purchase on the whole, however.

It is quite small, small enough to fit in a bag or briefcase, but so small it's kinda hard to write down what you've eaten. I saw one at a weight loss meeting that had the exact same cover but it was a lot bigger than this one. So my fault for not reading the size in the description and noticing it was not what I needed. If you write very small it would be perfect for you.

Love these journals. They have room to record all sorts of information. You can also carry them

everywhere with you and not have to worry about internet connection/phone charge/etc.

This was a gift for someone who was formerly using a program recommended by a dietitian that is no longer available. She was looking for something with all of these features this book has. While I wish it was just a little bit smaller, it seemed pretty good and she was thrilled with it.
