"I can't wait to see Depp's *Demon Barber of Fleet Street*. This is going to be classic!" Harry Knowles, *It Cool News*

MARK SALISBURY is the former editor of Britain's top-selling movie magazine, *Empire*, and author of a number of movie books, often in collaboration with Tim Burton, including *Planet of the Apes*, *Tim Burton's Corpse Bride: An Invitation to the Wedding* and *Burton on Burton*.

I loved *Sweeney Todd*, such as Tim Burton's other movies, i'm a big fan of his work and everything he do. This is one of my favourite film from him, so i was glad to found this book here for that price. This is a beautiful movie companion for the film, there are many interesting behind the scene facts

and pictures in it about the movie making process, plus interviews with the actors and much more... Everyone who loved the movie, this is a must buy! I bought it as used, but it is in a really good condition, just the cover damaged a bit, but i think the book was unread. And for that price, it was the best buy for me.

It was something else to watch and it was another thing to see how the masterpiece was made. The book goes over the characters, how the actors made the role, the music, sets, costumes and has part of the original script. Plus, it gives great insight on Tim Burton and other artists' decisions into developing the scenes, climax, music, and characters. The thing that makes this book is the pictures. It's hysterical to see a laughing Sweeney sharing a joke with Tim Burton. Plus, you get to see interesting behind the scene shots and the original set and costume designs. I'm very glad I bought this book and I still look at it even though it has been almost half a year since the movie came out. Five stars!

This is a must have companion book to the Tim Burton film. Wonderful photos. Truly a keepsake.

This a very nicely put together production book of the film. There are wonderful costume and set detail photos. Also included are interviews with director, producers, cast and crew. Often times I have been disappointed by the movie production book for a film but not this time around. It's awesome!

Awesome

Sweeney Todd The Demon Barber Of Fleet Street Deluxe - Complete Edition I had to buy the soundtrack, I couldn't get the wonderful music from this movie out of my head. From start to finish, the soundtrack is amazing. If you loved the movie, I highly recommend purchasing the music- and it comes with a beautiful booklet of photos, the complete lyrics, and a forward from Tim Burton.

I was very happy with the quality of the book, the packaging, and the speed at which it arrived in Australia, at a very reasonable rate. Many thanks!

I would recommend this book for any fan of the Sweeney Todd film. For those interested in filmmaking, there is a lot of behind-the-scenes information about the production. Here are some of

the topics included: Finding Sweeney Todd - casting Johnny Depp and his take on the title role. Finding Mrs. Lovett - Helena Bonham Carter and her acting process. Finding the Look - costumes, makeup, camera tests Finding a Supporting Cast - discussion about the supporting actors such as Alan Rickman and Sacha Baron Cohen Making Music - writing the musical score for the film, and the actors talk about singing No Place Like London - discussion of the sets and locations used Of course, all of this is accompanied by gorgeous photos. There are plenty of photos of the stars and the director on set, as well as sketches and concept art. Plus there are still images taken directly from the movie. The images are striking, and fortunately there are plenty of them. I would call this more of an art book than anything else - the text is interesting, but it's the pictures that make this book worthwhile.
