Customer Reviews

Very disappointing. Not impressed with this book. There are many excellent Thai books for the beginner to choose from; I would pass on this one. Not detailed enough. I thought it would be more in depth, nothing new or interesting.

This book is great. You'll have to go to an asian market for ingredients when you get down to cooking many of the recipes in this but when you do it is so worth the effort. Made the Pat Thai a couple of times now and it is one of the most flavorful dishes I have ever tasted. Green curry from scratch is amazing as well. Love this book!

I have been cooking from this book for the last three weeks, have made about 10 dishes so far. We tried one recipe that was just ok, everything else has been delicious. When you consider my husband and I spent \$30 on our last Thai dinner in a restaurant for food that was not as good as we can now cook at home, this book is a real deal. We live in a rural area without Asian markets, but with a few things ordered online and some substitutions these are recipes are perfectly do-able by a cook of average skill like me.

I received this book for Christmas and really love it. The recipes are straight-forward and easy to follow. There is not a picture for every recipe, but there is a short description about the dish to help you get an idea of what you're making. I love that there are a lot of recipes to choose from, because I've never cooked Thai food before and it gives me a range of things to try.

Really a creative learning. I tried some of the recipes included there and I found easy read with lots of information. In this book the best part I found that there was lots of creative thinking with the thai foods that makes really an amazing touch to the recipes and I loved those experiment. I will definitely share this book with my other cook lovers.

Job well done. A bible of sorts. I found recipes in here that I haven't even seen or smelled in years. Now, I can totally show off to mom on her next visit!

We love Thai food but the best Thai restaurant is 12 miles away. This cookbook makes it easy to make what we love. The only thing I would suggest is a photo of every dish. Photos would give a visual to compare our creations against.

We cooked our first pad Thai and made little appetizers from leaves. They were wonderful. I used this book to stock my Asian pantry for common cooking ingredients. Yum. We will be making more dishes soon.
