Talking of Egypt, only two things strike my mind - Mummies and pyramids! I have a plan to visit Cairo in this year and ever since then I've been reading lots of book and articles on travelling to Egypt. This book came as a suggestion and seeing the Egyptian Queen Nefertiti, my interest to read the ancient history grew further. Very insightful and deep book, revealing the history of Amarna period. The mysteries, the puzzles, her rise and fall, everything beautifully described. Really enjoyed this book, although I'm not into history and stuff. But this book is short and kept me hooked. Thumbs up!

I loved reading this book. It's a great walk down the history of what once was a strong and powerful country. Although a lot has happened over the years, reading about how things were in the past definitely was a great way to learn more about their history.
