Customer Reviews

I highly recommend this eBook to give knowledge about the illness. We should be aware and knows how to manage the disease by making the first step to have a happy and healthy life. This book must be in every home's library so that every family will have a future reference when it comes to the issue on Gout. After reading this book I finally got it, everything there is to know about Gout in a clear and simple manner, I understood the origins of it, how to prevent it, and how to treat it once someone has it. Very informative and clear book!

I am not aware of what is gout not until my boyfriend have a check on his doctor after having a severe pain on his foot. I have learnt from the book and as a beginner the book was really helpful.

clasp should be a little bigger

Good item...

I found the book to be anything but comprehensive. I felt it did not have any useful information.

Very limited information.
