Customer Reviews

Am working toward a Masters degree in Conflict Management and I have to say that this was the driest text we've had to date. Useless for non-attorney mediators as it is VERY attorney-centric. If you're a professor looking for a book to use in class and you're teaching students who are NOT in law school, please avoid this book! There are much better ones out there by all accounts. Now, if you're teaching at a law school, go nuts - the law students seemed to respond well to it. Which ought to tell you something.

Book arrived in excellent condition and is an easy read

Book was as advertised plus cost \$50 less than others listed elsewhere. Good deal.

Despite earlier negative reviews, I am enjoying this book for law students. The book actually flows very well.

Terrible textbook. It is a compilation of law review articles, mainly written by the author. It is not a real "textbook."
