TouchThinkLearn: Farm

Synopsis

Featuring spreads each with raised shaped objects that fit into scooped cutouts on their opposite page, these two new TouchThinkLearn books offer the youngest learners an irresistible opportunity to explore their universe in a hands-on, multisensory way. Seeing the image, tracing its shape, saying its name: these modes of perception combine in a dynamic way to stimulate understanding of essential concepts. Discover "and experience" a pig by tracing its raised outline on one side and the concave form of the mud puddle it wallows in on the other. Clusters of related words on each spread offer parents and children a springboard for further conversations to encourage the language skills so crucial to later successful learning. In a format unlike any other, these groundbreaking books translate abstract thought into tangible knowledge.

Xavier Deneux studied at Beaux-Arts de Paris. He has worked as a graphic artist, creating posters and decorations for various industries, and has illustrated more than forty children's books. He lives and works in Paris, France.

My baby loves these books. She picks them out of the bookshelf time and time again. The pages are beautifully illustrated and the 3-d cut-outs/prints are great for little fingers. Would highly

recommend!

Have never given the TouchThinkLearn books but was very impressed with the design and concept of this book for the very young child. I will be giving it to a mother who will give birth at the end of January so i'm hoping she'll agree with my assessment!

Just as great as the other touchthinklearn books! Really cute animals.

My daughter LOVES these books. They are raised and so she can feel them. They are very well constructed and simply beautiful with a clean design. Easy to flip pages too. Highly recommended for babies/toddlers and for gifts!

Our son LOVES these books. They are tactile and colorful. Lots of good vocab words and fun art. Very clever, sturdy, and beautiful!

Both Grandchildren love these books. They are nondestruct, colorful and both children love sounding out the characters.

Baby loves the book and interacts with every page. Very cute and not too flashy and overstimulating.

This book is adorable and my son loves it. It's also visually interesting for adults and not like other books that I've seen before for littles.
