Customer Reviews

'This book is incredible, enlightening and I believe it to be right on point. It will make you look at things from many angles before you make a decision to act, as every act has benefit and/or consequence in your life. Daniel is an author with foresight beyond his years.' -John Huntington California, USA Co-Founder of Hart and Huntington's Making my way through a lifetime of self help books, finally a text which executes practical use of how to apply the switch to an intelligent and positive lifestyle. Daniel's enthusiasm leaps out of the pages like he is personally behind your cause. Compelling reading!' -Helen Kapalos, Senior News Reporter, Channel 7

I read a few lines of this book on Instagram and was truly moved, so I had to purchase it. So far it's exactly what I expected and more. I am very much enjoying it. Do not hesitate. Buy it!

This book aims to teach the fundamentals of self-coaching. However I think it's a must for every coach in the world, as it is easier to watch and coach someone rather than coach to yourself. This is the reason because even coaches have coaches. A wonderful thing of this book is the integrity of the self and the unity of the main message. Any change occurs when mind, body and language are aligned with the main values regarding our life. Daniel suggests that love is the only trustworthy fund Atkin for a happy and fulfilling life. This book is more of fundamentals than practices. Good reference but in no case a stand alone guide. Some times it tries to take so many subjects than it lose depth. However the fundamentals are well treated, so you should buy and read this book because it will change the way you read another self help/transformation/philosophical books.

Highly recommend book for those who want to put various aspects of their life into perspective

This book has changed my life. I look forward to reading it again in a different phase of my life.

Very inspirational book to read. It feels like the book is talking to me. If you feel like you are getting demotivated in life, then it is a really good book to read

I recommend this book for every single person on earth! Really make you think about life and its infinite possibilities that come from within

This is for everyone. Easy to read, easy steps to follow and truly help you on your personal journey. Remember your two most important days : the day you were born and the day you know why.

Highly recommend this book to anyone. Probably one of the best book I've ever read til now. This book talks about many different topics that anyone can relate to. Worth buying, I swear!
