Customer Reviews

Aunque no lo he podido configurar como diccionario principal en mi Kindle, hasta el momento las consultas que he hecho han tenido una respuesta satisfactoria.

I work in a library and a lds missionary had it check out and kept wanting to keep it longer. So

thinking of my own missionary serving out of the states I thought I could do a good deed so I bought it for the missionary he was so pleased and said it the best book he used on his mission helping with language.

When I type in a word, the dictionary does not go directly to that word as other dictionaries do. It goes to all the examples where that word is used. There may be many pages of examples, and it's hard to find which one is actually the definition.

I'm very disappointed with the way this works on the Kindle. If you are a language buff and are looking for an easier way to get definitions while reading in spanish, this is not the answer. One has to go page by page to search for word definitions. Horrible! Horrible! Horrible!

Simply didn't work as a default dictionary in my Kindle touch... I've asked for a refund. Besides, the reviews were right: you have to go page to page to see the definitions....
