Franko Maps Ltd. is known for producing the best travel, dive and snorkel maps, guides and fish cards for the Pacific and other locations worldwide.

My family has a small home on one of the more enjoy Fijian Islands. This simple guide card is wonderful to take with us when snorkeling, wandering around tidal areas or after a great dive to identify the beautiful creatures we've just seen. I highly recommend this card to anyone traveling to Fiji. It weighs nothing, packs easily, is nearly indestructible and will greatly enhance your enjoyment of these beautiful waters.

Shows many of the most common fish of Fiji. The main problem with it is that a number of the fish illustrated are so small that they are difficult to use for identification purposes. A nice feature is that the guide is water resistant and sheds water readily. I even used this underwater with a wrist strap attached.

Were going to Fiji and this guide map will come in very handy to identify all of the ocean creatures we come in contact with to put a name to the fish to learn about.

Nice. But smaller than I expected. At about 5"x9" certainly not large enough to be used as a poster or reference. A bit too pricey too. (\$5). Delivered quickly though.

Couldn't find the fish we saw on it, but there are too many out there to fit them all on this card !

It's awesome! I would buy it again, very useful!
