I bought this because I have been using the "easy piano" version of this musical's piano music for easily 7 years now, and 7 years ago I needed it...now it is just cumbersome because you clearly know they have over-simplified it so beginners can play. This music sounds SO much realer and like the actual recorded music...I would recommend to intermediate - to - advanced experience level...intermediate will need some practice to polish and advanced will probably have no problems.

This music is absolutely beautiful and translated very well from the original score. The pieces are challenging enough to make them pretty and enjoyable and not too difficult for the intermediate pianist.

Daughter loves this gift and I loved the ease of ordering this gift on

I have only tried the Angel of Music - it was just right for my level. I have been playing for about 3 years now and had this song in the faber and faber play books. This has more depth in the chords.

I'm a singer and when I saw beauty and the beast. My childhood was based off of Disneyland movies from the nineties and fell in love with the songs all over again. Now I can sing along to the movie whenever I want to and hopefully have my children loving the same things I did as a little girl.

I am very happy with this book and would go Broadway on all the piano books i purchase (if it's available) for they are very nice and are a 100% worth the money, I highly recommend it!

I am so glad that I purchased this; I love being able to play my favorite songs from the Musical as well as those that were also in the movie. I would say the skill level required is intermediate, but not too difficult for those beginners who want a challenge.

Chord symbols are included in the piano accompaniment, so I don't really have to know how to play piano :P
