Same, Same But Different

Synopsis

Elliot lives in America, and Kailash lives in India. They are pen pals. By exchanging letters and pictures, they learn that they both love to climb trees, have pets, and go to school. Their worlds might look different, but they are actually similar. Same, same. But different! Through an inviting point-of-view and colorful, vivid illustrations, this story shows how two boys living oceans apart can be the best of friends.

Grade Level: Preschool - 2

Customer Reviews

• There is considerable usage potential here, from art projects to classroom community projects to diversity awareness projects • there's also plenty of pleasure to be found just in sharing the thoughtful story and perusing the artwork. • BCCB • Young readers will close the book longing to have a friend from another place; for schools with global partnerships, this will be a go-to book for introducing these projects to classrooms. • Horn Book Magazine • The imaginative multimedia illustrations, drawn in an animated, childlike style, add vibrant color and rich details to the story. Kosteck-Shaw presents a meaningful message of inclusivity in this engaging title. • SLJ • Working in exuberantly detailed spreads with a playful sense of proportion and perspective, she [Kosteck-Shaw] immerses readers in her heroes' worlds, showing them as

confident navigators of even the busiest landscapes. On every page, readers will sense they're in the company of a generous, open-minded talent. • PW • Purposeful, but saved from didacticism by the sheer exuberance of the illustrations; the accessible text introduces the idea of traditional two-way communication and demonstrates just how small our world can be. • Kirkus

Jenny Sue Kostecki-Shaw is the author and illustrator of *My Travelin' Eye*. She is a freelance illustrator who studied at the Kansas City Art Institute and The Illustration Academy. She lives in the mountains of Northern New Mexico with her family.

This book is a rare find that introduces India as a living place, not a myth. I wanted a book to read my three year old when my wife went on a business trip to India. I wanted a book that was about India as a real country, not a place of myths and dated stories. I did not just want a big book of facts. Wow, did "Same, Same but Different" deliver! My son loves it when we read about Elliot and Kailash. We can talk about how both boys ride a bus to school and how those buses are different. When my wife came home, she could sit with him and talk about how the part of India she visited - more urban than the book's setting - compared with what the pictures show. The illustrations are beautiful, and it is a pleasure to read and discuss with my son. If someone in the family is traveling to India, or if you just want a book about a different culture that relies on the real world and not stereotypes or myths, this book is a great choice.

This is an absolutely outstanding book! I used this book as an anchor in a "Family" themed kindergarten social studies unit. Inspired by this book, and many other stories about various family relationships, students wrote to grandparents, received and shared replies (of their own accord, chanting "Same, Same but Different!" when they heard similarities between their grandparents' letters) and invited their own parents in to share something their family loved to do. We then created our own "class book" inspired by *Same, Same but Different*, which highlighted our appreciation of our similarities and differences. I think it could easily be the anchor book for numerous lessons on appreciating diversity! Thank you Ms. Kostecki-Shaw! I can't wait to read your next books!

I enjoyed reading and sharing this book. Not only is the language simple and straightforward, but the illustrations compliment the writing perfectly. The illustrations are bright and colorful and highlight the similarities and differences between the two boys. I've really come to love collage as an

art form and this book demonstrates the characteristics that make collage so unique. I had a fun discussion with a group of kindergartners about the different materials used in collage I had a fun discussion with a group of kindergartners about the different materials used in collage and how that effected the feel of the book. It was great. It was interesting to listen to the comments of the children as they looked at the pictures illustrating some of the differences between the places that Elliot and Kailash live. The elephant on the same street as cars, pedestrians and carts especially caught their attention. This book provides a nice way to introduce to children the idea that people in other places are both the same and different as they are.

Nice story promoting reflection on cultural differences. Highly recommended for elementary teachers' classrooms and any home wanting to promote cultural understanding.

I had an international upbringing but haven't been able to offer my kids the same thus far. This is a wonderful intro to foreign lands and cultures. My 5 year old is intrigued. We examined the differences in family living, architecture vehicles and more. My boy loved the Indian school bus powered by a bicycle.

My two year old enjoys the stories and pictures. This is a book he will enjoy for many years - and may inspire an art penpal exchange (what a beautiful idea).

Great book for children! I read it with my first grade students and they loved it. Especially great to teach similarities and differences between cultures, lifestyles, perspectives, etc. I had one student who would repeat the phrase "same, same but different" whenever we were talking about similarities and differences among our class.

my grand kids love the book.
