This gift wrap will also add elegance to your papercraft cards, gifts, home decor and scrapbooking projects." â€”About.com

This is such beautiful paper. I wrapped presents today with it, and all my sons (!) commented on how attractive the presents were. (That NEVER happens!). All the sheets of paper come in a tear-out pad. Each sheet, once torn out, unfolds and opens to 4 x its size in the pad. In the front of the pad is a page that gives lots of ideas for using the wrapping paper in very artistic ways.

I don't need to wrap presents often, so having this organized way of delivering them is a big help. There is an excellent selection of patterns, which I love. I just sent a couple of gifts to a relative wrapped in the Japanese blue prints. Easy to use, and they made the gifts seem just that little extra bit special.

This book of wrapping paper is so clever and beautiful I don't ever want to buy wrapping paper on a roll again! The way the paper is folded and tucked away neatly into book form is pure genius as it will fit on a book shelf and not take up much room at all. The designs on each sheet are gorgeous. I love this paper!! I wrapped birthday gifts using three different pages from the book and the packages looked gorgeous. The thickness of the paper and the color saturation make this gift wrap look like I wrapped presents using works of art. I made bows and ribbons out of strips of paper from other pages so there would be contrast and the gifts looked beautiful. I am ordering more! Get some, play with it, have fun.

It comes like a book, with a sturdy cardboard in the middle so it was kept safe. Perforated, easy to tear out. Quality is VERY nice for the price. Thick enough to know the person ripping it apart will be impressed! So many things you can do with this and so many amazing prints.

My entire life, I have wrapped presents in the same, boring paper. I have wrapped birthday presents with Christmas wrapping paper, and have used that same paper to wrap presents several years later. No more! This wrapping paper is beautiful, with exquisite designs that many would say resemble patterns found on origami sheets. While there are only twelve pieces of paper, it should be noted that each sheet folds out into a much larger sheet. While this paper is not great for boxes, it is perfect for wrapping books, and other smaller items. It feels sturdy, unlike the typical flimsy paper that is likely sitting in your closet, and has a glossy finish, thus a high quality feel. I would highly recommend this for anyone looking to wrap a smaller gift. This product is absolutely worth the higher than average cost.

Beautiful papers! I love using flat wrap because it is just easier to work with than rolls. The lovely and exquisite quality is an incredible bonus. This wrap makes the presentation of a gift truly impressive. I can't say enough good about this -- I am SO glad I found it!

These are gorgeous. Not only can you wrap impressive presents, you can also line drawers, cabinets, bookcovers with this richly printed paper. It is heavy weight but still creases very efficiently and sharply. Presentation in the bound covers is really lovely enough for giving the paper as a gift.

A bit too thin to wrap a book without being able to see the book's title. Nice patterns, but too expensive to have to double wrap.
