My Son is addicted to Minecraft everything. I bought this book for him to read so that he can continue on increasing his reading level in School. He has been reading a little every night and while the books he is use to usually has pictures, he is telling me that he can't put the book down because it is so interesting. My Son is also a fan of "Diary of A Wimpy Kid" (book 12). We have pre-ordered that book for him as well and he is just overall happy with this one book already. He says he felt really sad about the baby polar bear missing, and my Son who is 10, can't wait to keep reading till the Daddy polar bear finds polar bear cub. The book and the way he describes it, is similar to Finding Nemo. Lots of hurdles to jump over before Nemo is found. The same with this book. Good example to keep striving when things get hard. I really appreciate that.

I got this set of books for my stepson who loves Minecraft!! He was thrilled with them!! This set allows you to experience the life of each character and see how they interact and what they'll get into next!! This one is actually entertaining, yet sad. The baby polar bear is missing and you won't want to put the book down until the Daddy polar bear hopefully finds the cub. This one is a great

story with numerous roadblocks and reminders to just keep moving and keep on trying! All of this is bound in paperback (or kindle) form with easy to read dialogue. This set of "Diaries" is the perfect addition to your young readers library. They're going to dig into each one with excitement!! I highly recommend this book and the entire set!!

My son loves Minecraft and anything Minecraft related so I knew he would enjoy reading it. The only reason I am giving it 4 stars instead of 5 is because my son is 12 and the box was a little too easy for him. He read it in one sitting but he really did enjoy it. He got a kick out of the book being from the bears perspective and really thought it was a good interpretation of what a Minecraft polar bear would be like. He really got into the son being "cubnapped" and was rooting for a happy ending. All in all he really enjoyed the book but thought it would be better for children a little younger than him.

I got this book for my daughter that does not like to read at all. Her reading grade is suffering and I really needed help motivating her. She has a Minecraft sweatshirt that she loves so I saw this book and thought it was worth a try. When it arrived she was actually excited. It's not one of those thick, intimidating books that she's been bringing home and letting it sit on her dresser until it's time to return it to the school library! She's enjoying the book and I'm so happy about it!

I purchased this book for my daughter who LOVES Diary of a Wimpy Kid AND Minecraft so I thought she would really enjoy this book and she did! This is a great book for a young avid reader or older elementary level reader as it's a chapter book. There are 76 pages and 30 chapters (2 page chapter) in this book to give you an idea of the length before you buy for your young reader. It is about a baby polar bear who goes missing and that's all I will share as not to give any part of the story away.

Emotions run high in this book as a baby polar bear cub goes missing. The main character, who is the father, goes on a quest to rescue his cub and faces both physical and emotional challenges along the way. This book teaches us that it is important to have a clear head (not let our emotions get the best of us) when making decisions to prevent unintended consequences and to better see the bigger picture of the situation. An excellent read from start to finish.

My son LOVES Minecraft. I homeschool and although I don't want to keep up full homeschooling during the summer, I do want them to keep up on reading and I've found the best way to do that is

to buy books they are interested in. He LOVES this book so I am going to order more of the Minecraft books for him. I am hoping if I can light that reading spark in the kids, they will learn to love reading like I do. I am never without a book in my purse.

My grandson loves the world of Minecraft and he loves the other books by this author so I knew he'd love this book. I was right, he read it in a single sitting and has re-read it several times. Now he wants the whole set which he will probably get for his birthday this year! I like to encourage reading with my grandchildren so finding something so perfect for him is great!
