Customer Reviews

Taught me things about myself that I didn't know. This was by far one of hardest tests I'd ever read about and the author helped not only unlock the secrets to the test, but helped me to think differently about my study habits and why I was motivated to this test in the first place. This book will go

deeper than just the test; it is a great investment in academic motivation and true will at its core. Bonus is the author was helpful and willing to answer all my emails about the subject. I highly encourage you to buy this book--- the author is a great L4 mentor, open to all questions.

Do not get this book, totally worthless. Just talks about how to study better, what the test is like, how to manage time, etc. No practical info or test questions just general student stuff.

This was a great book for anyone who wants to know how to attack the fylsx. I recommend to anyone who wants to pass the baby bar.

This was helpful and insightful with tricks to be successful on the first year law student exam! Definitely will recommend!
