# From Medicine To Miracle: How My Faith Overcame Cancer

## Synopsis

Mary Self was first diagnosed with bone cancer in 1983 and underwent above-knee amputation and intensive chemotherapy. Believing that she had beaten the disease she went on to complete her studies in medicine, married her college sweetheart and, in defiance of medical assertions that she was sterile, gave birth to two beautiful children. In February 1999 however, her nightmare was to return as cancer once again ravaged her body. Mary was told that the cancer would no longer respond to treatment and that she was terminally ill. She returned home to her family to make final arrangements, and fulfilled a wish to take her son back to Australia to show him where he had been born. After coming home from Australia, Mary's condition rapidly worsened and she was admitted to a hospice for pain control. She asked the elders of her church to visit and pray for her. This is the incredible story of how one doctor won her own personal battle against cancer through the power of prayer.
