Patrick Allitt is Cahoon Family Professor of American History at Emory University, and an Americanist specializing in religious, intellectual, and environmental history. He graduated from Oxford, England in 1977 and earned his Ph.D. in American History in 1986 from the University of California, Berkeley. He was a postdoctoral fellow at Harvard Divinity School (1985-1988) and has been at Emory since 1988. Author of six books, he is also the presenter of six lecture series with The Teaching Company (<http://www.teach12.com>) on aspects of American and British history. His current research and writing project is a history of the intellectual and political opponents of environmentalism, from the 1960s to the early twenty-first century.

I decided to use this book as a supplementary reader for my history class emphasizing the importance of religion on American political, economic and social development. The work contains a

number of good essays and many short primary selections on the topic but is somewhat uneven. For example, there is little material on the effect of religion on the reform impulse prior to the Civil War except for the abolitionist movement. Nevertheless, I decided it was the best book available for the class.

"Major Problems" is just an academic phrase. It's not about problems. It is about interesting people, groups, and movements in American religion and their impact on American government, culture, and history.

much better than anything i would have picked up used from my school's bookstore. and SO much cheaper. i would 100% order my books from you again, and probably will next semester.

okay
