Customer Reviews

Silent Sales Machine is not just a "game changer" - it can be a "life changer" IF you follow what Jim Cockrum says and implement. Yes, Nike truly has the best slogan "Just Do It" because we often hesitate or simply do not do something out of fear of the unknown. I was going to talk about this book, but honestly, you can read the other reviews for that. I'd like to tell you about the author. I had the honor of meeting Jim, Andrea and their children and his parents and can tell you that they are some of the most sincere, helpful people I've had the pleasure of meeting. You can tell that Jim's intentions are first and foremost to help you make a better life. He gives away some of his best tips and tactics. He is continually updating, upgrading and upsizing his membership site mysilentteam.com. Just when I thought it couldn't get any better, he will get us another steep discount on a great product or create another course and add it into the member area as a freebie. And let me tell you, the value of many of Jim's "free" courses could be and are sold for hundreds of dollars to non-members. Additionally, he has hosted the BEST events I've ever attended. I've had the honor of going to CESI and CESII. I can tell you that the people make the difference. Sure they have products, resources and coaching to sell, but it is a soft sell and you WANT to buy their offerings because you can tell that all of his fellow marketers are there to help. You know why? His showcase name says it all - Real People. They're not professional speakers with a spiel and a pitch. (Of course, the keynote speaker is usually a professional.) The best part is that they are all willing to help each other out - not just at the event but in the Facebook group. I have made some friends for life through Jim's events. So if you're looking for a book to take the first steps to change your life, start here. If you're looking for a mentor, you've come to the right place. He's the real deal!

I actually found this book by accident in researching another expensive opportunity for selling on . As it turns out, Jim (the author) has a program for selling on as well -- and it is MUCH cheaper. Before deciding on doing Jim's selling course, I decided to get this book to get a feel for his philosophy. The

guy really knows his stuff for online marketing and I feel he is genuinely interested in helping people become successful in their online endeavors. It also puts my mind at ease that his business is BBB Accredited with an A+ (as of the time of this review). The book stressed the importance of finding an audience FIRST before making the sale. Many people create the website first and then go out to find their customers later. He also covered selling on eBay and , retail arbitrage (buying deeply discounted retail to resell), blogging for profit, and the importance of having an email list of interested followers. I was impressed enough with this book that I'm planning on buying his selling course in the near future. Give this book a read -- well worth the \$5 for the kindle (online) edition!

Excellent book! I have been a part of Jim Cockrun's Proven Course since August 2015 and just read the book earlier in November 2015. The information contained is extremely valuable especially if you have ever tried to earn any money online. I struggled for years and years trying to become financially self-sufficient - (live that 4 hour work week life) - but only made a few dollars. I joined expensive programs, did private labeling, affiliate marketing, etc. - Nothing! Now I am actually making a profit and do believe by the end of 2016, I will have achieved the dream after nearly 15 years. If not for the information in this book that he rolled into several courses with the willing assistance of some of his best students, I would still be in dream mode. Be warned though - If you buy this book, join his (more than affordable) courses, join his Silent Team Facebook group(s), forums, sign-up for his newsletters, you will ONLY get more honest, actionable, reliable advice and wisdom not only from Jim (yes, he is always advising his Facebook groups), but also the vast knowledge of his community as well. No more going it alone! Disclosure: I was not asked to write a review even though I received a free copy when the book was listed for free here. I write this on my own accord because I think there are others like me struggling with great intentions but acting upon terrible intelligence. You can turn your ship to the wind and set sail to safer shores with the information inside this small but potent book.

Well, after finally reading this book, I think I'm going to have a T-Shirt made with "Please Kick Me Now" on the back of it and wear it for a few months or years. I've had this book on my hard drive since 2008 (in earlier versions) but never read it until Version 9. And, for almost 20 years, I've had a bad case of Shiny Object Syndrome and bought more IM Marketing crap than I can ever remember. Sure, I've made some money but not nearly enough to cover what I've spent. Jim cleared away the cobwebs for me and I will never look back. If this book and the PAC system I also bought in 2012 but had never used don't work, then I'm done! But, I know they will. Everything he teaches makes

sense and I know it has worked for many folks. I was already getting fed up and finally starting to see the light but I was still looking in all the wrong places. I'm actually a very smart person with a high IQ but I learned long ago that high IQ doesn't automatically equal success. I guess I'm living proof! Best IM book and mentor to latch onto if you are looking for a true online business that lasts.
