The Art Of Brom

Synopsis

Brom has collected together the very best of his art spanning his 30 year career. Many pieces have never before been published. Brom has written an insightful autobiography sharing his artistic journey from his earliest childhood drawings, his frustrations with commercial art, challenges breaking into the industry, to his years working in games and film, and insights into his latest personal works. Brom's art is a harmony of extremes: dark and beautiful, haunting and inspiring, majestic and raw. The Art of Brom is equally diverse. Here are images made iconic through his illustrated novels and his work in film and games. Many of the book's images, including those previously published, have been rescanned from the original artwork, and color-corrected by the artist himself, ensuring meticulous reproduction quality. Furthermore, this collection is designed by Brom allowing him the opportunity to arrange his art in a personal manner, with large full-color images and details to show his brush work.

Customer Reviews

BROM first made his mark developing and illustrating for TSR's best-selling role-playing worlds. He has since gone on to lend his distinctive vision to all facets of the creative industries, from novels and games, to comics and film. Most recently he's created a series of award-winning horror novels that he both writes and illustrates: *The Plucker* (an adult children's book) and *The Devil's Rose* (a modern western set in Hell). His latest novel, *The Child Thief*, is a gritty, nightmarish retelling of the Peter Pan myth.

The cover of this macabre book tells it all with the painting of Morgan Le Fey in all her glory. With a story of Brom titled "Heart of Darkness" by Arnie Fenner and also Brom's life story "Up Jumped the Devil", makes great reading for those who do not know him and his devils and demons that dance in the world of the macabre and bizarre imagination of a gifted artist. Throughout the book some of the reproductions are in close ups on the opposite page so you can appreciate the detail of the work. From a man whose career spans thirty years, the art work is copied on glossy paper and would stand out in your collection of art books. Containing over 200 major works, it is an insight into a mind, and soul, of a man some call evil, but to those who know, he is a pure genius in his field. Buy a copy and delve into a realm that few have mastered in a lifetime. This book gets five stars because I am glad he is here and doing what he loves above all else, paint day in and day out, but I will only recommend the book to people who appreciate a true artist of the dark side.

Really impressed with the production and binding on this one. It's a retrospective, but still PLENTY of cool new stuff. Even the images from Brom's previous art books feel like new as you can see the incredible deference the high-rez scans make, all the subtlety and brush work really come through. Got a real kick out of reading Brom's autobiography and seeing the pics and art from his childhood as well. A must have for any collector of fantastic art.

Brom is a fantastic dark artist and I've been a fan of his work for many years. He is also an exceptional story teller and I own all of his books up to this point, and I'm waiting impatiently for his next one! If I had my way, I'd own very specific prints of his work and put them on my walls, but so far a lot of my favorite works aren't available. Maybe someday. In the meantime I love flipping the pages of this book and seeing what goes on in Brom's head!

Brom is one of the landmark fantasy artists of our time. Brom's art is instantly recognizable because of the chiseled and rugged musculature of the heroes he depicts and occasionally from the incredible smoothness and flawless skin of his softer women. Always present is an obvious fascination for the strange and unusual. Whatever kind of madness (all the most interesting people are their own unique flavor of crazy) inspires Brom, he has made magic easier to believe in. I recommend this book to lovers of art and magic, and to interesting people the world over who are brewing a little madness of their own.

The item itself is wonderful and I am thrilled with it!! 5 stars. The method of shipping lacked some

care, as the book's corners were a bit damaged.

FANTASTIC!!! The art inside and print quality of this book is exceptional. I enjoyed Broms bio as its full of insight and wit. Fine addition for any fan or collector of his work. I highly recommend this book!

I've been peripherally familiar with Brom's art. I got this without knowing the content and it has been very inspirational and motivating. highly recommended especially if you start questioning whether you should continuing doing artistically what you like doing. One of my favourite art of books.

Wonderful book of art with a great article by Brom.
