The Fountainhead Of Religion: A Comparative Study Of The Principle Religions Of The World And A Manifestation Of Their Common Origin From The Vedas

Synopsis

Prasad writes that the Vedas are the oldest written source of theology and, ultimately, the source of all other theological systems. He takes major religious themes--such as good and evil, the afterlife, resurrection and the name used for god in the religions of Judaism, Christianity, Buddhism and others--and traces them back to the Vedas.

Customer Reviews

Best chronological explanation and dissection of theology I've ever read! It all makes sense now!

I was familiar with the book before I bought it. But had I know it was so profound in its simplicity, I would have purchased it many years ago. Prasad does not have a hidden agenda. He just presents his case in a clear logical form. No dogma, no bias, just very well thought out and logical. If you are interested in TRULY knowing where ALL the world's religions came from, in a no nonsense format, and are willing to put away your bias for the truth, then please consider this book. BEWARE, it is not for the feeble minded! Prasad forces one to think about who they are and where they "came" from. Not an easy task to swallow for most, especially the dogmatists.
