Kindle Unlimited, which is probably a good thing if you like this type of book and then realize it's going to be The Viral Superhero Series (5 Book collection total) by Bryan Cohen and Casey Lane that will include 1 The Dark Souls 2 The Telepath 3 The Candidate 4 Enemy Territory 5 The Devil Within. ooooh superheroes *POW*1 The Dark Souls 2 The Telepath 3 The Candidate 4 Enemy Territory 5 The Devil Within* Books edited and revamped new editiond -- Dark Souls previously published as Ted Saves the World, The Telepath as Mind Over Easy, The Candidate as Portal Combat, Enemy Territory as The Light, the Dark, and the Ugly and The Devil Within as Veil to the ChiefIn this week's thrilling episode After passing through the portal to another realm, superhero Ted Finley must put his trust in unlikely allies to survive. Hoping or assuming #5 will clear it all up or whatever.

Bryan Cohen has created a marvelous series in Ted! Each book takes us further in the life of a group of teenagers who are discovering who they are, while trying to save the world and stay alive. In so many series, by book four, you are seldom surprised by anything as it's formula written. Not with Ted's latest book! Every page seems to be a twist, a new reason to turn the next page, or a new character to get to know. I simply love this series. Ted and friends never stop, and can navigate the evil characters faster than I can say READ THIS BOOK. Mr. Cohen does not lightly draw the reader in " he grabs you and doesn't let you go. You end up caring about the characters, laugh at their exploits, feel sadness when death or destruction occur, and get mad when evil triumphs. The author handles sensitive issues like death in a very caring, way " unless you need to be jolted by cold, uncaring evil as the story develops. I enjoy having my emotions drug along through page after page. This series delivers so much, a little romance (after all superheroes need loved), a little lightness and joy, a lot of second guessing and flying by the seat of their pants, and of course, a little evil to keep us all in line. And if you think you know the ending on the second to last page|.you are WRONG. LOVE it! Every word, every gasp, sob, and held breath. Book Five cannot come quick enough. This is not a heavy or light read "

it's a roller coaster that you do not want to stop. READ this book! READ this series!

Ted and Natalie are trapped in the realm of dark souls. Not only is this enemy territory, but also a war zone. Erica, Jennifer, Dhiraj, and Travis are trying to figure out how to rescue them. This is also complicated by the chaos going on in their hometown of Treasure, all precipitated by the evil President-want-to-be, Kable. This latest book in the Viral Superhero series is just as interesting and intriguing as the others. If you choose to read this book, please read the others first so you are up to date on the storyline and can learn all the characters; you will be so happy that you did. This story has more of a hanging ending than the previous books so you will want to continue on to the next book asap to see what happens. Enjoy!

I really enjoyed this 4th book in the series. It was interesting to experience one of the worlds with Ted and Natalie, and to see the other, more human (or in this case, non-human) side of war. Ted's corny one-liners still crack me up, but the conflict is getting more serious and consequences more drastic. All in all a good read.

Another great book in the series. I especially like the endings of these books. The author ends each book with a cliffhanger, but not in an annoying way - it leaves you wanting more. Can't wait to start the fifth book.
