Customer Reviews

10 out of 10 Stars! This book includes detailed explanations of the answers, as well as distractors for each question. --Scott Hopkins, D.C., Book Reviewer from Dynamic Chiropractic Publication I want to thank Dr. Patrick Leonardi for the assistance that National Board of Chiropractic Part III Study Guide and National Board of Chiropractic Part IV Study Guide provided in preparation of taking the NBCE exams. I scored a 597 on part III and 640 on part IV of the NBCE exams. I spent many hours using these books as the resource that brought all the information together in a very concise manner. After being out of school for many years and needing to pass the exams that were not in existence when I graduated these books were just what I needed. The explanations and concepts were very helpful as well as the roster of questions. I was confident about passing the exams but these books helped me achieve another level. --Rich Monoson DCI want to thank Dr. Patrick Leonardi for the assistance that National Board of Chiropractic Part III Study Guide and

Dr. Patrick Leonardi has written over 60 study guides since 1995. His study guides have helped thousands of students achieve better grades in less time and effort. The author has a talent for focusing on the similar key questions that are asked on exams.

Dark paper made it difficult to read without bothering eyes. Not very helpful most reviews already have these questions

This is a wonderful book for the boards. The questions are just great and helpful since they are of board type. The explanations are excellent because they tell you why other choices are wrong. This book helped me a lot on the boards and I also recommend Yochum's book Skeletal radiology book. Both these books are wonderful.
