What can I say about the Conclusion to a great series - I can say that this book was awesome! This book, the final installment of a great series, was masterful written to include all elements of what can be considered drama. In this book the reader is served with murder, sex, violence, love, revenge, lies, power, betrayal, lust and the dearly departed (Dizzy). I was fascinated of how J.S. Lewis incorporated all of the above elements into this book without it being too much. He added the right amount of the elements of drama that gave this book a much satisfying conclusion. I am just sorry that the series is over. There is nothing more to say about this book except that it was truly wonderful and it had the ending that I was very pleased with. I am happy knowing that Jevaughn, Dre, Kraigie and AJ can have a moment of peace in their lives without the interruption of outside forces whether dead or alive causing havoc. J.S. Lewis has written five installments of this series that were different by yet the same. Each was well-written, never boring and brought the HEAT that made this series very interesting and very emotional. This Book sends the series off in a great eclipse of drama that does not disappoint. I would like to thank J.S Lewis for giving me moments of pleasure because I had the chance to read this book and the previous 4 that was not only entertaining but left me with a hunger to make a difference by fighting for gay justice in my small part of the world.

J. S. Lewis is an aspiring young author and has great talent, which anyone will be able to see when he or she start reading The Jamaican American Thug Drama Saga. He overcame the pain, the anguish and the threats of bodily harm and even death threats as a teenager and used that as inspiration to be true to himself no matter what and to create this story about how life is for the LGBT community in Jamaica. I have been reading his work from day one, chapter-by-chapter, book-by-book and I was so involved with the story that I lost all track of time. If you love to read and you love adventure, suspense, crime, drama and love stories, then you will love this series, which has all that and more. I highly recommend all 5 books and I guarantee that you won't be able to put them down once you start to read and you will be wanting more.

great book. Was not ready for this series to end.

Oooooooooohwee good way to end the series!!!! Just EVERYTHING! Couldn't put this book down for anything! This series was mindblowing!

It has to be more I have tears in my eyes I want more and can u make it longer to I guess I read to quick.

I love it

He conquered the torment, the anguish and the dangers of real mischief and even demise dangers as an issue and utilized that as persuasion to be valid to himself regardless of what and to make this tale about how life is for the LGBT group in Jamaica. I have been perusing his work from the very beginning, section by-part, book-by-book and I was so included with the story that I lost all track of time. On the off chance that you love to peruse and you adore experience, tension, wrongdoing, dramatization and affection stories, then you will love this arrangement, which has all that and that's just the beginning. I exceedingly prescribe every one of the 5 books and I promise that you won't have the capacity to put them down once you begin to peruse and you will be needing more.

I am really sad that am at the last book, I wanna read more but everything has it's skyfall. Well this has show that everyone will go to the very end of the world to protect the their partner and What's we call true love. IT's also highlights that we have persons who love the create problems and they love the revenge and they do this by hurting innocent individual wwhich will always cause problems. Also we tend to have person who habe power and they always abuse the little power they have and they don't want to accept the fact that they are wrong when they are in certain situation a clear example of this is the white family. Am not a fan of romance by with dre and jevaughn we can learn and take there life as an example and use it has a guideline to make ours work.
