How To Outsmart The Credit Bureaus

Synopsis

This book is full of unknown information that has never been released to the public. It contains detailed information about the credit bureaus and how their database operates. Anyone who has good or bad credit should listen to this book. This book takes an inside look at the tactics that can be used for individuals seeking to get ahead in life without the use of credit repair or debt consolidation companies. If you ever wanted to know about the secrets of the credit bureaus, I stress that you listen to this book.

Customer Reviews

I thoroughly enjoyed the book. Very informative and it gave me several tools I didn't have before I read it. The student loan insight is worth its weight in gold. Things I didn't like were there were no mentions of the other 2 CRA's Innovis and ChexSystems. Also there was no guidance on "late payment" removals. After reading this book I have to say Corey P. Smith is the subject matter expert on credit. Even when I found the information that wasn't included into his book written by another author I emailed it to Corey for verification of accuracy. Thanks Corey.

Great book. Some of this I already knew, but I have applied a couple pointers and fixed some things that were lingering on my report.

This may be the worst book I've read. Illegal, unlikely to work, outdated and completely useless information. I should have read the other reviews.

Changed my life!

The best most compact book on the subject

This book was a very informative book. Thank you Mr. Smith for writing this book. I appreciate all the information.

Good information

Excellent book! Uncovered many hidden sources and strategies....very interesting....well written book!
