Customer Reviews

This book is perfect for planning your trip. It tells you where to go, where to eat, how to get there and many tips and recommendations. I found it very useful! Only thing I don't like is that the map only covers a part of the city and not the entire city, but at least is something.

I use these lovely little guide books for all of my travels to Europe.. small and very well laid out.

New, as expected, what more could you want?

Not sure if this is the hard copy that would not ship or the Ipad version I purchased. Either way, it was pretty much not of any use as the available information was exceptionally minimal and provided us with no real insight. We were served much better by a book loaned to us at our BnB once we arrived in Bruges. I would not recommend purchasing this.

Great, I love the Lonely Planet books!

Excellent and very informative
