# Come For Cholent: The Jewish Stew Cookbook

## Synopsis

These are more than cookbooks. Each book is a joyful, witty celebration of Cholent, that delicious long-simmering Shabbat stew, full of the lore and history of cholent-making from all over the world. Interspersed are cooking hints and stories that will enhance your own family's culinary adventures. International Cholent, Vegetarian Cholent, and more!

## Customer Reviews

At first I was surprised at how thin this book was given the price; however, it proved to be worth it in the end. This book is a wonderful reference for a wide variety of one-pot, slow-cooking stews. There's something for everyone here, even vegetarians. Any of these recipes can be done "the old fashioned way" in a slow oven; however, there's no reason why they couldn't be done in a slow cooker or on the stovetop instead (just use a flame diffuser to prevent burning). Even though winter is almost over, I am most certainly going to try many of the very varied dishes in this specialty cookbook.

I was surprised that the book was used as I had bought it as a bridal shower gift. But the bride and her mother-in-law were thrilled. It was so unusual and so traditional that everyone present wanted a copy.

I love this book. Finally, cholent recipes that have real amounts listed. A wide variety of types of cholent, normal and weird (see Spleen Cholent and Chocolate Cholent). My favorite so far is Red

Cholent, which is a beany, barley, ketchupy type like I always attempted and failed.

This fabulous set of cookbooks not only offers wonderful recipes, but also educational information about the traditions behind the foods as well as amusing stories and charming anecdotes. A must for any collector of Jewish cookbooks!

this is a good and a quite complete book for those who need additional information about jewish cooking

A must read for anyone entering the 21st century
