## Customer Reviews

If you want to make a difference, and live an extraordinary life, this book has some great tips for you. There are 120 tips listed, and I was able to pick out 10 or so that I could start to work on right away. Some I have done before, and just needed a reminder, and some will be new for me. The author does a good job presenting them - the number can be overwhelming, but he breaks it down and offers brief explanations after each one which makes it easy to read, and then move on. The quotes are also very good - I would like to have had the author of the quote provided just for my information, but I recognized many of them. Liked the suggestion for aim for progress, not perfection. That is a great reminder in all we do.

Today most of people suffer anxiety disorder with this book I learned how to overcome depression and anxiety. I agree with Zachary about watching a feel good video before going to sleep, it helps me to have a good sleep and forget all the stress even just for a while. When I am stress at work I find it hard to sleep at night, I kept on thinking how to do the report for the next day of work. It literally drains the hell out of me! When you read the book you'll realize that Zachary's advises are well-known but we tend to forget them because we are drunk with the world's frustration and routines of our daily life. If you are on the verge of breaking down and wanted to escape, buy this book! You will also find motivational quotes that will help you face the new day with a positive outlook in life.

Various techniques mentioned in the book beginning with meditation are things which I find easy to follow. And then of course, the list of 120 things followed by equally powerful quotes is also quite amazing. I found the book uplifting my spirit, become a more positive

person and overall appreciate and enjoy life and thus get rid of stress and anxiety.
