Sheet Metal Forming Processes And Die Design

Synopsis

Written by an engineer with decades of practical manufacturing experience, this new edition has been thoroughly revised and is a complete modern guide to sheet metal forming processes and die design – still the most commonly used methodology for the mass-production manufacture of aircraft, automobiles, and complex high-precision parts. Included are the – hows – and – whys – of product analysis, as well as the techniques for blanking, punching, bending, deep drawing, stretching, material economy, strip design, movement of metal during stamping, and tooling. Its focus is on simple, applicable engineering methods rather than complex numerical techniques.

Book Information

Hardcover: 450 pages

Publisher: Industrial Press, Inc.; 2 edition (April 1, 2014)

Language: English

ISBN-10: 0831134925

ISBN-13: 978-0831134921

Product Dimensions: 8 x 1 x 10 inches

Shipping Weight: 2 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 2 customer reviews

Best Sellers Rank: #257,254 in Books (See Top 100 in Books) #16 in Books > Engineering & Transportation > Engineering > Materials & Material Science > Extraction & Processing #46 in Books > Engineering & Transportation > Engineering > Mechanical > Welding #61 in Books > Engineering & Transportation > Engineering > Materials & Material Science > Metallurgy

Customer Reviews

Excellent text.

Exactly what I was looking for. A great balance of theory and practice.
