Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

"A top-notch choice that children will not want to put down."

Steven Kellogg is a beloved author and illustrator who has published than 100 picture books, including the classics "The Mysterious Tadpole, Can I Keep Him?, The Island of the Skog, Is Your Mama a Llama?" and this book, "Pinkerton, Behave!", which was on "Horn Book" and "Booklist" "Best of the Year" lists and led to four sequels. A winner of the Regina Medal for his lifetime contribution to children's literature, Steven Kellogg's books have received numerous accolades, such as being named Reading Rainbow featured selections and winning the "Boston Globe-Horn Book" Award, the Irma Simonton Black Award, the IRA-CBC Children's Choice Award, and the "Parents' Choice" Award. --This text refers to an out of print or unavailable edition of this title.

Probably the top book loved by my sons when they were little. Recently sent it to a friend's

grandson to celebrate his little sister being born. The story is goofy, but little kids LOVE goofy. But it's adorable: a conversation between mom and kid; we read the book to my son so much that he'd often just start the conversation with me without the book, as he had memorized it! How fun is that?

My son brought home a book about Jimmy's adventure to an aquarium and LOVED it and so I checked to see if they had any others in this series and it brought me to this. He did not enjoy this one nearly as much as the other book. Cute, but the 6 year old has spoken!

Funny and fresh, featuring a dauntless young girl and her adventurous friend with a friendly pet snake. The story is told backward and so the reader can unfold clues in words and pictures to figure out the sequence of events at a very funny class field trip to a farm. Or a younger reader can just revel in the surprising situations. A joy!

This book, and it's storyline, may be a little young for my almost nine year old daughter, but upon reading it to her (a bedtime ritual), she was quite engaged with the detail of the pictures. On that front, the book is terrifically detailed, providing an abundance of visual information that (probably purposefully) contrasts nicely with the short, unexcited answers the narrative character (a daughter returning from a field trip) doles out in response to her mom's eager questions (a dynamic I can relate to). Once we were done reading, my daughter studied the pages to make sure there weren't any undiscovered evidence of funny goings-on at the farm. I'm sure she'll be intrigued enough to peruse it again.

This was one of our favorites growing up, and now we're excited to share it with our kid too.

Great story, wish paperbacks like these were less expensive since they are so flimsy.

My granddaughter loves this book! It is one of our summer reading books. She is 6 years old, going into 2nd grade in the fall. This is a book that captures your eye with the fun illustrations, plus the story itself is hilarious. We read it together and later in the day I saw her in her reading corner enjoying this book. I would highly recommend *The Day Jimmy's Boa At the Wash* to any preschool or early elementary school child.

I bought this for my kids because I remembered how much I loved it as a kid. They quickly fell in

love with this book for all the reasons I did. Still to this day when I ask them how school was they say, "Oh good, until cow started crying." ;)
