# Hunger Of Memory : The Education Of Richard Rodriguez

## Synopsis

Hunger of Memory is the story of Mexican-American Richard Rodriguez, who begins his schooling in Sacramento, California, knowing just 50 words of English, and concludes his university studies in the stately quiet of the reading room of the British Museum. Here is the poignant journey of a "minority student" who pays the cost of his social assimilation and academic success with a painful alienation from his past, his parents, his culture and so describes the high price of "making it" in middle-class America. Provocative in its positions on affirmative action and bilingual education, Hunger of Memory is a powerful political statement, a profound study of the importance of language ... and the moving, intimate portrait of a boy struggling to become a man.

## Book Information

Mass Market Paperback: 212 pages

Publisher: Bantam; Later Printing (20th and over) edition (February 1, 1983)

## Customer Reviews

"Arresting ... Splendidly written intellectual autobiography." "Boston Globe" "Superb autobiographical essay ... Mr. Rodriguez offers himself as an example of the long labor of change: its costs, about which he is movingly frank, its loneliness, but also its triumph." "New York Times Book Review"

Hunger Of Memory is the story of a Mexican-American Richard Rodriguez, who begins his schooling in Sacramento, California, knowing just 50 words of English and concludes his university studies in the stately quiet of the reading room of the British Museum. "Arresting...Splendidly written intellectual autobiography." -- Boston Globe "Superb autobiographical essay... Mr. Rodriguez offers himself as an example of the long labor of change: its costs, about which he is movingly frank, its loneliness, but also its triumph." -- The New York Times Book Review

Brilliant!! Not only a beautifully written book, but he covers essential areas of the education of immigrants that we MUST consider if we are to uphold our dignity and integrity as human beings. A must for all school systems and parents.

Poetic and sophisticated. Rodriguez's education changes him to a point of alienation, not only from his family, but from his peers as well. He burns through books at the library searching for other experiences to relate to his inner feelings.

one of my favorite authors. wonderful read.

most excellent!

My older brother, a recent graduate from George Washington Law School, recommended me this book. Richard's autobiography had me captivated from the first word to the last. I don't know if it was the similarities between my own life with his, or because he spoke the very truth of affirmative action. Either way, this is a must read for all Mexican-Americans who want something to relate to, or for someone who wants to garner more knowledge of a middle-class Chicano living in this great country!

Great book, I am Mexican American and had to read this in college for an English class. Rodriguez is a very opinionated person and there may be things you don't agree with him, but over time throughout my college life I began to see his points, which I will spare the details. I recommend you read it because it gives a view on language barriers between Mexican Americans and white Americans here in the U.S as well as other topics that you may come across in classes in college and its a great reference to go back to.

Though this book was written around the time I was born, many of the revelations are still quite profound. As a teacher who works with second language learners, it is enlightening to hear a personal account of one individual's struggle with language acquisition. Without doubt, his meditations on what is gained and lost by learning to live in a foreign language is important to consider.

I was obligated to read this book for a project. The best chapter is complexion. Pretty boring and I was happy that I was done with the book.
